Notes to Consolidated Financial Statements

1. Basis of Presentation

United States Steel Corporation (U. S. Steel) produces and sells steel mill products, including flat-rolled and tubular products in the United States and flat-rolled and pipe products in Central Europe. Operations in the United States also include iron ore mining and processing to supply steel producing units, real estate management and development, and transportation services.

The year-end consolidated balance sheet data was derived from audited statements but does not include all disclosures required by accounting principles generally accepted in the United States. The other information in these financial statements is unaudited but, in the opinion of management, reflects all adjustments necessary for a fair presentation of the results for the periods covered. All such adjustments are of a normal recurring nature unless disclosed otherwise. These financial statements, including notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. Additional information is contained in the United States Steel Corporation Annual Report on Form 10-K for the year ended December 31, 2006.

2. New Accounting Standards

In February 2007, the Financial Accounting Standards Board (FASB) issued FAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115" (FAS 159). This Statement permits entities to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses on these instruments in earnings. FAS 159 is effective as of January 1, 2008. U. S. Steel does not expect any material financial statement implications relating to the adoption of this Statement.

In September 2006, the FASB issued FAS No. 157, "Fair Value Measurements." This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. The Statement applies under other accounting pronouncements that require or permit fair value measurements and, accordingly, does not require any new fair value measurements. This Statement is effective as of January 1, 2008. U. S. Steel does not expect any material financial statement implications relating to the adoption of this Statement.

3. Segment Information

U. S. Steel has three reportable segments: Flat-rolled Products (Flat-rolled), U. S. Steel Europe (USSE), and Tubular Products (Tubular). The results of several operating segments that do not constitute reportable segments are combined and disclosed in the Other Businesses category.

The chief operating decision maker evaluates performance and determines resource allocations based on a number of factors, the primary measure being income from operations. Income from operations for reportable segments and Other Businesses does not include net interest and other financial costs, the income tax provision, benefit expenses for current retirees and certain other items that management believes are not indicative of future results. Information on segment assets is not disclosed as it is not reviewed by the chief operating decision maker.

The accounting principles applied at the operating segment level in determining income from operations are generally the same as those applied at the consolidated financial statement level.

Table of Contents

The transfer value for steel rounds and bands from Flat-rolled to Tubular and the transfer value for domestic iron ore pellets from Other Businesses to Flat-rolled are set at the beginning of each year based on expected total production costs and may be adjusted quarterly if actual production costs warrant. All other intersegment sales and transfers are accounted for at market-based prices and are eliminated at the corporate consolidation level. Corporate-level selling, general and administrative expenses and costs related to certain former businesses are allocated to the reportable segments and Other Businesses based on measures of activity that management believes are reasonable.

The results of segment operations for the first quarter of 2007 and 2006 are:

(In millions)	Customer Sales	Intersegment Sales	Net Sales	Income (loss) from investees	Income from operations
First Quarter 2007					
Flat-rolled	\$ 2,189	\$ 85	\$2,274	\$ 3	\$ 75
USSE	1,160	-	1,160	-	206
Tubular	356	-	356	-	102
Total reportable segments	3,705	85	3,790	3	383
Other Businesses	51	164	215	(1)	2
Reconciling Items	-	(249)	(249)	-	(39)
Total	\$ 3,756	\$ -	\$3,756	\$ 2	\$ 346
First Quarter 2006

USSE	854	9	863	-	125
Tubular	485	-	485	-	177
Total reportable segments	3,665	132	3,797	7	429
Other Businesses	63	179	242	-	-
Reconciling Items	-	(311)	(311)	-	(60)
Total	\$ 3,728	\$ -	\$3,728	\$ 7	\$ 369

The following is a schedule of reconciling items for the first quarter of 2007 and 2006:

(In millions)	Income From Operations	
	2007	2006
Items not allocated to segments:		
Retiree benefit expenses	\$ (39)	\$ (55)
Other items not allocated to segments:		
Asset impairment (Note 6)	-	(5)
Total items not allocated to segments	(39)	(60)
Total reconciling items	\$ (39)	\$ (60)

4. Acquisition

On March 29, 2007, U. S. Steel and Lone Star Technologies (Lone Star) announced that they had entered into a definitive agreement under which U. S. Steel would acquire Lone Star for \$67.50 per share in cash.

Lone Star is a leading manufacturer of welded oil country tubular goods, and the acquisition is expected to strengthen U. S. Steel's position as a premier producer of tubular products for the energy sector.

Table of Contents

The transaction, valued at approximately \$2.1 billion, is expected to close late in the second quarter or early in the third quarter of 2007, subject to approval of Lone Star's shareholders and the satisfaction of customary closing conditions, including regulatory approval.

5. Pensions and Other Benefits

The following table reflects components of net periodic benefit cost for the three months ended March 31, 2007 and 2006:

(In millions)	Pension Benefits		Other Benefits	
	2007	2006	2007	2006
Service cost	\$ 24	\$ 24	\$ 3	\$ 4
Interest cost	100	102	39	37
Expected return on plan assets	(141)	(140)	(13)	(11)
Amortization of prior service cost	6	16	(8)	(11)
Amortization of net loss	32	38	10	9
Net periodic benefit cost, excluding below	21	40	31	28
Multiemployer plans	7	7	-	-
Termination loss	1	-	-	-
Net periodic benefit cost	\$ 29	\$ 47	\$ 31	\$ 28

During the third quarter of 2006, approximately 1,800 U. S. Steel Balkan (USSB) employees (or 23 percent of the workforce) accepted a severance or voluntary early retirement plan (VERP). Employee severance and net employee benefit charges of \$21 million (including \$12 million in settlement, termination and curtailment losses) were recorded for these employees. Of this expense, \$4 million was recorded in selling, general, and administrative expenses and \$17 million in cost of sales. As of March 31, 2007, all employees included in the VERP had left the company and \$24 million of cash payments had been made.

In conjunction with the VERP that was begun in the third quarter of 2006, USSB retained the option to eliminate additional positions. In March 2007, USSB provided 390 employees the choice to accept a VERP or a severance payment. As under the earlier program, employees were also provided an option to retrain for specific operating positions. As of March 31, 2007, 313 employees had elected to leave under the program resulting in employee severance and net employee benefit charges of \$5 million (including \$1 million of termination losses). Of this expense, \$2 million was recorded in selling, general, and administrative expenses and \$3 million in cost of sales. These employees, and others who accept the offer, are expected to leave the Company in the second quarter 2007.

Approximately 100 additional employees will be offered the same program in the second quarter and it is expected that those who accept the VERP or severance offer, as applicable, will also leave the company in the second quarter 2007.

Employer Contributions

In October 2006, U. S. Steel's Board of Directors authorized additional contributions to U. S. Steel's trusts for pensions and health care of up to \$300 million by the end of 2008. U. S. Steel previously disclosed in its financial statements for the year ended December 31, 2006, that it expected to make a voluntary contribution of \$140 million to its main defined benefit pension plan in 2007, and make cash payments of \$7 million to plans not funded by trusts and \$31 million to a multiemployer plan. As of March 31, 2007, U. S. Steel had made a \$35 million voluntary contribution to its main defined benefit pension plan, cash payments of \$2 million to other plans

Table of Contents

and cash payments of \$7 million to the Steelworkers Pension Trust, respectively. U. S. Steel may make additional voluntary contributions to its main defined benefit pension plan in subsequent quarters of 2007.

As of March 31, 2007, \$10 million in contributions had been made to other postretirement plans and cash payments of \$53 million had been made for other postretirement benefit payments not funded by trusts.

Company contributions to defined contribution plans totaled \$6 million and \$5 million for the three months ended March 31, 2007 and 2006, respectively.

6. Depreciation, Depletion and Amortization

U. S. Steel records depreciation on a modified straight-line method for steel-related assets located in the United States based upon raw steel production levels. Applying modification factors decreased expenses by \$14 million and \$8 million for the first quarter of 2007 and 2006, respectively, when compared to a straight-line calculation.

Accumulated depreciation and depletion totaled \$7,796 million and \$7,768 million at March 31, 2007 and December 31, 2006, respectively.

A charge of \$5 million was recorded in depreciation, depletion and amortization on the statement of operations in the first quarter 2006. This was the result of an impairment review completed in accordance with FAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" due to the potential sale of a small wholly owned German subsidiary of U. S. Steel Kosice (USSK), that was subsequently sold in the fourth quarter 2006.

7. Net Interest and Other Financial Costs

Net interest and other financial costs include foreign currency gains and losses as a result of transactions denominated in currencies other than the functional currencies of U. S. Steel's operations. During the first quarter of 2007, net foreign currency gains of \$4 million were recorded in net interest and other financial costs, compared with net gains of \$1 million in the first quarter of 2006.

Net interest and other financial costs for the first quarter 2007 include a \$3 million write-off of discount issue costs related to the full redemption of the Senior Quarterly Income Debt Securities. See Note 11.

8. Income Taxes

On January 1, 2007, U. S. Steel adopted FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109" (FIN 48). As a result of the implementation of FIN 48, U. S. Steel recognized an increase of approximately \$3 million in the liability for uncertain tax positions, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings.

The total amount of unrecognized tax benefits were \$42 million and \$44 million as of March 31, 2007 and January 1, 2007, respectively. If these unrecognized tax benefits were recognized, the annual effective tax rate would decrease by approximately two percentage points. Unrecognized tax benefits are the differences between a tax position taken, or expected to be taken in a tax return, and the benefit recognized for accounting purposes pursuant to FIN 48.

Table of Contents

U. S. Steel records interest related to uncertain tax positions as a part of net interest and other financial costs in the Statement of Operations. Any penalties are recognized as part of selling, general and administrative expenses. As of March 31, 2007 and January 1, 2007, U. S. Steel had an accrued liability of \$3 million and \$2 million, respectively for interest related to uncertain tax positions. U. S. Steel currently does not have a liability for tax penalties.

Provision for taxes

The income tax provision in the first three months of 2007 reflects an estimated annual effective tax rate of 18 percent. This estimated annual effective rate requires management to make its best estimate of annual pretax income for the year. During the year, management regularly updates forecast estimates based on changes in various factors such as prices, shipments, product mix, plant operating performance and cost estimates, including labor, raw materials, energy and pension and other postretirement benefits. To the extent that actual pretax results for domestic and foreign income in 2007 vary from forecast estimates applied at the end of the most recent interim period, the actual tax provision recognized in 2007 could be materially different from the forecast annual tax provision as of the end of the first quarter.

Taxes on Foreign Income

The Slovak Income Tax Act provides an income tax credit which is available to USSK if certain conditions are met. In order to claim the tax credit in any year, 60 percent of USSK's sales must be export sales and USSK must reinvest the tax credits claimed in qualifying capital expenditures during the year in which the credit is claimed and the following four years. The provisions of the Slovak Income Tax Act permit USSK to claim a tax credit of 100 percent of USSK's tax liability for the years 2000 through 2004 and 50 percent of the current statutory rate of 19 percent for the years 2005 through 2009. The Slovak tax authority has confirmed that USSK has fulfilled all of the necessary conditions for claiming the tax credit for the years 2000 through 2005. As a result of conditions imposed when Slovakia joined the European Union (EU) that were amended by a 2004 settlement with the EU, the total tax credit granted to USSK for the period 2000 through 2009 is limited to \$430 million. Based on the credits previously used and forecasts of future taxable income, management expects that this limit will be reached during 2008. Additionally, the conditions for claiming the tax credit also limit USSK's annual production of flat-rolled products and its sale of flat-rolled products into the EU. Management does not believe the production and sales limits are materially burdensome, and they will expire at the end of 2009, if not before. During 2006 and in the first quarter of 2007, a current income tax provision was recorded for USSK because the tax credit is limited to 50 percent of the statutory rate.

Tax years subject to Examination

Below is a summary of the tax years open to examination by major tax jurisdiction:

U.S. Federal – 2002 and forward
U.S. States – 1998 and forward
Slovakia – 2000 and forward
Serbia – 2003 and forward

Status of IRS Examinations

The 2002-2003 IRS audit of U. S. Steel's tax returns was completed in the second quarter of 2006 and agreement was reached with the IRS on the proposed adjustments. There was no material impact on income taxes or interest resulting from the settlement of these audits. Net operating losses generated in the years 2002 and 2003 were carried forward and fully utilized in U. S. Steel's 2004 and 2005 tax returns, which are currently under examination by the IRS.

Deferred taxes

As of March 31, 2007, the net domestic deferred tax asset was \$414 million compared to \$446 million at December 31, 2006. Based on factors such as the length of time over which the

[Table of Contents](#)

deduction for employee benefit liabilities will be claimed on tax returns, the current law provisions which permit loss carryforwards for an extended period, and U. S. Steel's demonstrated ability to utilize the entire amount of tax deductions and tax attributes over previous business cycles, management fully expects to realize tax benefits for the entire amount of these recorded tax assets.

As of March 31, 2007, the amount of net foreign deferred tax assets recorded was \$17 million, net of an established valuation allowance of \$96 million. As of December 31, 2006, the amount of net foreign deferred tax assets recorded was \$19 million, net of an established valuation allowance of \$90 million. Net foreign deferred tax assets will fluctuate as the value of the U.S. dollar changes with respect to the euro, the Slovak koruna and the Serbian dinar. A valuation allowance of \$83 million is recorded for Serbian deferred tax assets due to the cumulative losses experienced since the acquisition of USSB in 2003. These deferred tax assets primarily consist of investment tax credits and net operating losses and have a carryforward period of ten years from inception. As USSB generates sufficient income, the valuation allowance would be partially or fully reversed at such time that it is more likely than not that the related deferred tax asset will be realized.

9. Preferred and Common Shares, Income Per Common Share

Preferred Share Conversion

The Series B Preferred shares were converted into approximately 16 million shares of U. S. Steel common stock on June 15, 2006. Preferred stock dividends reduced retained earnings by \$4 million in the first quarter 2006. Following this conversion, no preferred shares remained outstanding.

Common Stock Repurchase Program

On October 31, 2006, U. S. Steel's Board of Directors replenished the Common Stock Repurchase Program that originated in July 2005 to allow for the repurchase of up to eight million shares of our common stock from time to time in the open market or privately negotiated transactions. During the first quarter of 2007, 305,000 shares of common stock were repurchased for \$25 million and at March 31, 2007, 7,346,200 shares remain authorized to be repurchased. During 2006, U. S. Steel repurchased 7,247,600 shares of common stock for \$442 million under this program.

Income Per Common Share

Basic net income per common share was calculated by adjusting net income for dividend requirements of preferred stock and is based on the weighted average number of common shares outstanding during the quarter.

Diluted net income per common share assumes the exercise of stock options, the vesting of restricted stock and the conversion of preferred stock, provided in each case the effect is dilutive. For the quarter ended March 31, 2007 and 2006, 760,646 shares and 16,750,640 shares of common stock, respectively, related to the conversion of preferred stock, employee options, and restricted stock have been included in the computation of diluted net income because their effect was dilutive. Net income in 2006 was not adjusted for preferred stock dividend requirements since their conversion was assumed.

10. Inventories

Inventories are carried at the lower of cost or market. The first-in, first-out method is the predominant method of inventory costing for USSE. The last-in, first-out (LIFO) method is the predominant method of inventory costing for inventories in the United States. At March 31, 2007

Table of Contents

and December 31, 2006, the LIFO method accounted for 68 percent and 67 percent of total inventory values, respectively.

(In millions)	March 31, 2007	December 31, 2006
Raw materials	\$ 558	\$ 560
Semi-finished products	621	597
Finished products	374	368
Supplies and sundry items	65	79
Total	\$ 1,618	\$ 1,604

Current acquisition costs were estimated to exceed the above inventory values by \$970 million at March 31, 2007 and by \$900 million at December 31, 2006. Cost of sales was reduced by \$13 million and \$7 million in the first three months of 2007 and 2006, respectively, as a result of liquidations of LIFO inventories.

Supplies and sundry items inventory in the table above includes \$61 million and \$65 million of land held for residential or commercial development as of March 31, 2007 and December 31, 2006, respectively.

U. S. Steel has coke swap agreements with other steel manufacturers designed to reduce transportation costs in supplying coke to our operating locations. The coke swaps are recorded at cost in accordance with APB 29, "Accounting for Nonmonetary Transactions" and FAS No. 153, "Exchanges of Nonmonetary Assets." U. S. Steel shipped approximately 195,000 tons and received approximately 240,000 tons of coke under the swap agreements during the first quarter of 2007. U. S. Steel shipped approximately 195,000 tons and received approximately 170,000 tons of coke under the swap agreements during 2006. There was no income statement impact related to these swaps.

11. Debt

(In millions)	Interest Rates %	Maturity	Mar. 31, 2007	Dec. 31, 2006

Table of Contents

U. S. Steel redeemed the Senior Quarterly Income Debt Securities (Quarterly Debt Securities) on January 2, 2007. The Quarterly Debt Securities were redeemable at the option of U. S. Steel on or after December 31, 2006 at 100 percent of the principal amount together with accrued, but unpaid interest at the redemption date.

Some or all of the outstanding 9 ³/₄% Senior Notes may be redeemed at a premium after May 15, 2007. The premium ranges from 4.875 percent to zero percent, depending on the redemption date.

Effective March 28, 2007, U. S. Steel obtained a commitment for three senior credit facilities in an aggregate amount of \$1.75 billion.

At March 31, 2007, in the event of a change in control of U. S. Steel, debt obligations totaling \$378 million may be declared immediately due and payable. In such event, U. S. Steel may also be required to either repurchase the leased Fairfield slab caster for \$71 million or provide a letter of credit to secure the remaining obligation.

In the event of the bankruptcy of Marathon Oil Corporation (Marathon), \$526 million related to Environmental Revenue bonds, the Fairfield Caster Lease and the coke battery lease at Clairton Works may be declared immediately due and payable.

U. S. Steel was in compliance with all of its debt covenants at March 31, 2007.

12. Asset Retirement Obligations

U. S. Steel's asset retirement obligations primarily relate to mine and landfill closure and post-closure costs. The following table reflects changes in the carrying values of asset retirement obligations:

(In millions)	March 31, 2007	December 31, 2006
Balance at beginning of year	\$ 33	\$ 27
Foreign currency translation effects	-	3
Accretion expense	1	3
Balance at end of period	\$ 34	\$ 33

Certain asset retirement obligations related to disposal costs of fixed assets at our steel facilities have not been recorded because they have an indeterminate settlement date. These asset retirement obligations will be initially recognized in the period in which sufficient information exists to estimate their fair value.

13. Variable Interest Entities

In accordance with Financial Accounting Standards Board Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities, an interpretation of ARB No. 51" (FIN 46R), U. S. Steel is required to consolidate the following entities.

Clairton 1314B Partnership

U. S. Steel is the sole general partner and there are two unaffiliated limited partners of the Clairton 1314B Partnership (1314B Partnership), which owns two of the twelve coke batteries at Clairton Works. Because U. S. Steel is the primary beneficiary of this entity, U. S. Steel is required to consolidate this partnership in its financial results. U. S. Steel is responsible for purchasing, operations and sales of coke and coke by-products. U. S. Steel has a commitment to fund

Table of Contents

operating cash shortfalls of the 1314B Partnership of up to \$150 million. Additionally, U. S. Steel, under certain circumstances, is required to indemnify the limited partners if the partnership product sales fail to qualify for credits under Section 29 of the Internal Revenue Code. Furthermore, U. S. Steel, under certain circumstances, has indemnified the 1314B Partnership for environmental obligations. See Note 16 for further discussion of commitments related to the 1314B Partnership.

Blackbird Acquisition Inc.

Blackbird Acquisition Inc. (Blackbird) is an entity established to facilitate the purchase and sale of certain fixed assets. U. S. Steel has no ownership interest in Blackbird. At March 31, 2007, there were no assets or liabilities consolidated through Blackbird.

U. S. Steel Receivables, LLC

U. S. Steel has a receivables purchase program. Trade accounts receivable are sold, on a daily basis without recourse, to U. S. Steel Receivables, LLC (USSR), a wholly owned consolidated special purpose entity. USSR can then sell revolving interests in the receivables to certain commercial paper conduits. During the three months ended March 31, 2007, no interest in accounts receivable were sold to or repurchased from conduits. As of March 31, 2007, \$500 million was available under this facility. The Receivables Purchase Agreement expires on September 25, 2009, and does not require annual commitment extensions.

Daniel Ross Bridge, LLC

Daniel Ross Bridge, LLC (DRB) was established for the development of a 1,600 acre master-planned community in Hoover, Alabama. DRB manages the development and marketing of the property. The consolidation of DRB did not have a significant effect on U. S. Steel's results for the quarter ended March 31, 2007.

Chicago Lakeside Development, LLC

Chicago Lakeside Development, LLC (CLD) was established in 2006 to develop 275 acres of land that U. S. Steel owns in Chicago, Illinois. During the predevelopment phase of the project (expected to last approximately eighteen months), CLD will investigate the feasibility of the project and plan the development. U. S. Steel will contribute approximately 45 percent of the costs incurred during this phase. If CLD proceeds with the development, U. S. Steel will contribute its land to the entity for development. During the three months ended March 31, 2007, the consolidation of CLD reduced income from operations by \$2 million, which was partially offset by minority interests of \$1 million.

14. Comprehensive Income

The following table reflects comprehensive income for the three months ended March 31, 2007 and 2006.

<u>(In millions)</u>	<u>2007</u>	<u>2006</u>
Net income	\$273	\$256
Changes in foreign currency translation adjustments, net of tax	34	135
Changes in employee benefit accounts, net of tax	20	-
Comprehensive income	\$327	\$391

15. Related Party Transactions

Net sales to related parties and receivables from related parties primarily reflect sales of steel products, raw materials, coke by-products, transportation services and fees for providing various

Table of Contents

management and other support services to equity and other related parties. Generally, transactions are conducted under long-term market-based contractual arrangements. Related party sales and service transactions were \$246 million and \$207 million for the quarters ended March 31, 2007 and 2006, respectively. Sales to related parties were conducted under terms comparable to those with unrelated parties.

Purchases from equity investees for outside processing services amounted to \$9 million and \$10 million for the quarter ended March 31, 2007 and March 31, 2006, respectively.

Accounts payable to related parties include balances due PRO-TEC Coating Company (PRO-TEC) of \$78 million and \$57 million at March 31, 2007 and December 31, 2006, respectively, for invoicing and receivables collection services provided by U. S. Steel. U. S. Steel, as PRO-TEC's exclusive sales agent, is responsible for credit risk related to those receivables. U. S. Steel also provides PRO-TEC marketing, selling and customer service functions. Payables to equity investees totaled \$1 million and \$2 million at March 31, 2007 and December 31, 2006, respectively.

16. Contingencies and Commitments

U. S. Steel is the subject of, or party to, a number of pending or threatened legal actions, contingencies and commitments involving a variety of matters, including laws and regulations relating to the environment. Certain of these matters are discussed below. The ultimate resolution of these contingencies could, individually or in the aggregate, be material to the consolidated financial statements. However, management believes that U. S. Steel will remain a viable and competitive enterprise even though it is possible that these contingencies could be resolved unfavorably.

U. S. Steel accrues for estimated costs related to existing lawsuits, claims and proceedings when it is probable that it will incur these costs in the future.

Asbestos matters – As of March 31, 2007, U. S. Steel was a defendant in approximately 310 active cases involving approximately 3,300 plaintiffs. At December 31, 2006, U. S. Steel was a defendant in approximately 300 active cases involving approximately 3,700 plaintiffs. Many of these cases involve multiple defendants (typically from fifty to more than one hundred). Almost 3,000, or approximately 91 percent, of these claims are currently pending in jurisdictions which permit filings with massive numbers of plaintiffs. Based upon U. S. Steel's experience in such cases, it believes that the actual number of plaintiffs who ultimately assert claims against U. S. Steel will likely be a small fraction of the total number of plaintiffs. During the first quarter 2007, U. S. Steel paid approximately \$1 million in settlements. These settlements, along with review of case docket information for certain states, and voluntary and involuntary dismissals, resulted in the disposition of approximately 600 claims. New case filings added approximately 200 claims. During 2006, U. S. Steel paid approximately \$8 million in settlements. These settlements, along with review of case docket information for certain states, and voluntary and involuntary dismissals, resulted in the disposition of approximately 5,150 claims. New case filings added approximately 450 claims.

Historically, these claims against U. S. Steel fall into three major groups: (1) claims made under certain federal and general maritime laws by employees of former operations of U. S. Steel; (2) claims made by persons who allegedly were exposed to asbestos at U. S. Steel facilities (referred to as "premises claims"); and (3) claims made by industrial workers allegedly exposed to products formerly manufactured by U. S. Steel. While U. S. Steel has excess casualty insurance, these policies have multi-million dollar self-insured retentions. To date, U. S. Steel has not

Table of Contents

received any payments under these policies relating to asbestos claims. In most cases, this excess casualty insurance is the only insurance applicable to asbestos claims.

These asbestos cases allege a variety of respiratory and other diseases based on alleged exposure to asbestos. U. S. Steel is currently a defendant in cases in which a total of approximately 150 plaintiffs allege that they are suffering from mesothelioma. The potential for damages against defendants may be greater in cases in which the plaintiffs can prove mesothelioma. In many such cases in which claims have been asserted against U. S. Steel, the plaintiffs have been unable to establish any causal relationship to U. S. Steel or its products or premises. In addition, in many asbestos cases, the plaintiffs have been unable to demonstrate that they have suffered any identifiable injury or compensable loss at all; that any injuries that they have incurred did in fact result from alleged exposure to asbestos; or that such alleged exposure was in any way related to U. S. Steel or its products or premises.

The amount U. S. Steel has accrued for pending asbestos claims is not material to U. S. Steel's financial position. U. S. Steel does not accrue for unasserted asbestos claims because it believes it is not possible to determine whether any loss is probable with respect to such claims or even to estimate the amount or range of any possible losses. Among the reasons that U. S. Steel cannot reasonably estimate the number and nature of claims against it is that the vast majority of pending claims against it allege so-called "premises" liability-based exposure on U. S. Steel's current or former premises. These claims are made by an indeterminable number of people such as truck drivers, railroad workers, salespersons, contractors and their employees, government inspectors, customers, visitors and even trespassers.

It is not possible to predict the ultimate outcome of asbestos-related lawsuits, claims and proceedings due to the unpredictable nature of personal injury litigation. Despite this uncertainty, and although our results of operations and cash flows for a given period could be adversely affected by asbestos-related lawsuits, claims and proceedings, management believes that the ultimate resolution of these matters will not have a material adverse effect on U. S. Steel's financial condition. Among the factors considered in reaching this conclusion are: (1) that U. S. Steel has been subject to a total of approximately 34,000 asbestos claims over the past 15 years that have been administratively dismissed or are inactive due to the failure of the plaintiffs to present any medical evidence supporting their claims; (2) that over the last several years, the total number of pending claims has generally declined; (3) that it has been many years since U. S. Steel employed maritime workers or manufactured or sold asbestos containing products; and (4) U. S. Steel's history of trial outcomes, settlements and dismissals.

Environmental Matters – U. S. Steel is subject to federal, state, local and foreign laws and regulations relating to the environment. These laws generally provide for control of pollutants released into the environment and require responsible parties to undertake remediation of hazardous waste disposal sites. Penalties may be imposed for noncompliance. Accrued liabilities for remediation activities totaled \$141 million at March 31, 2007, of which \$17 million was classified as current, and \$140 million at December 31, 2006, of which \$18 million was classified as current. Expenses related to remediation are recorded in cost of sales and totaled \$4 million, and \$5 million for the quarters ended March 31, 2007 and 2006, respectively. It is not presently possible to estimate the ultimate amount of all remediation costs that might be incurred or the penalties that may be imposed. Due to uncertainties inherent in remediation projects and the associated liabilities, it is possible that total remediation costs for active matters may exceed the accrued liabilities by as much as 25 percent.

Remediation Projects

U. S. Steel is involved in environmental remediation projects at or adjacent to several U. S. Steel current and former facilities and other locations, that are in various stages of completion ranging

Table of Contents

from initial characterization through post-closure monitoring. Based on the anticipated scope and degree of uncertainty of projects, we categorize projects as follows:

- (1) Projects with Ongoing Study and Scope Development are those projects for which material additional costs are reasonably possible.
- (2) Significant Projects with Defined Scope are those projects with significant accrued liabilities, a defined scope and little likelihood of material additional costs.
- (3) Other Projects are those projects with relatively small accrued liabilities for which we believe that, while additional costs are possible, they are not likely to be material, and those projects for which we do not yet possess sufficient information to form a judgment about potential costs.

Projects with Ongoing Study and Scope Development – There are seven environmental remediation projects where reasonably possible additional costs for completion are not currently estimable, but could be material. These projects are four Resource Conservation and Recovery Act (RCRA) programs, including two at Fairfield Works, one at Lorain Tubular, and one at the Fairless Plant, a possible remediation of the West Grand Calumet Lagoon at Gary Works, a voluntary remediation at the former steel making plant at Joliet, Illinois, and one state Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) program at the Duluth St. Louis Estuary and Upland Project. As of March 31, 2007, accrued liabilities for these projects totaled \$4 million for the costs of studies, investigations, interim measures, remediation and/or design. Additional liabilities associated with future requirements regarding studies, investigations, design and remediation for these projects may prove insignificant or could range in the aggregate up to \$30 million. It is anticipated that the scope of one of the Fairfield Works RCRA projects and the possible Gary Works West Grand Calumet Lagoon Project will become defined during 2007 and may be removed from this category. The scope of the Duluth project, depending on agency negotiations, could also become defined in 2007.

Significant Projects with Defined Scope – As of March 31, 2007, a total of \$63 million was accrued for other projects at or related to Gary Works, as well as the Municipal Industrial & Disposal Company (MIDC) CERCLA site in Elizabeth, PA, where the scope of the work required is well developed. These Gary Works projects include the other RCRA program projects, Natural Resource Damages (NRD) claims, completion of projects for the Grand Calumet River and the related Corrective Action Management Unit (CAMU), and closure costs for three hazardous waste disposal sites and one solid waste disposal site. These RCRA program projects are in the final study stage and data currently indicates that any further required remediation, beyond that which has been accrued, should not be material. The NRD claims have been resolved by final settlement orders and payment schedules are determined. The Grand Calumet River and the related CAMU project are essentially complete, except for currently accrued liabilities for costs associated with additional dredging, CAMU maintenance and wastewater treatment. A Closure Permit application has been submitted for the hazardous waste sites, that also address the one solid waste site, and there has been no meaningful agency action on the application. Investigation and studies have been completed for the MIDC project as well as 90 percent of the remedial design. U. S. Steel does not expect any material additional costs related to these projects.

At U. S. Steel's former Geneva Works, liability for environmental remediation, including for the closure of three hazardous waste impoundments and facility-wide corrective action, has been allocated between U. S. Steel and Geneva Steel Company pursuant to an asset sales agreement and a permit issued by Utah Department of Environmental Quality. In December 2005, a third party purchased the Geneva site and assumed Geneva Steel's rights and obligations under the

Table of Contents

asset sales agreement and the permit pursuant to a bankruptcy court order. U. S. Steel has reviewed environmental data concerning the project, has commenced the development of work plans that are necessary to begin field investigations and has begun remediation on some areas of the site for which U. S. Steel has responsibility. U. S. Steel had an accrued liability of \$23 million as of March 31, 2007 for its share of the remaining costs of remediation.

Other Projects – There are four other environmental remediation projects which each had an accrued liability of between \$1 million and \$5 million. The total accrued liability for these projects at March 31, 2007 was \$12 million. These projects have progressed through a significant portion of the design phase and material additional costs are not expected.

The remaining environmental remediation projects each had an accrued liability of less than \$1 million. The total accrued liability for these projects at March 31, 2007 was \$12 million. We do not foresee material additional liabilities for any of these sites.

Post-Closure Costs – Accrued liabilities for post-closure site monitoring and other costs at various closed landfills totaled \$17 million at March 31, 2007 and were based on known scopes of work.

Administrative and Legal Costs – As of March 31, 2007, U. S. Steel had an accrued liability of \$6 million for administrative and legal costs related to environmental remediation projects. These accrued liabilities were based on projected administrative and legal costs for the next three years and do not change significantly from year to year.

Capital Expenditures – For a number of years, U. S. Steel has made substantial capital expenditures to bring existing facilities into compliance with various laws relating to the environment. In the first three months of 2007 and 2006 such capital expenditures totaled \$9 million and \$24 million, respectively. U. S. Steel anticipates making additional such expenditures in the future; however, the exact amounts and timing of such expenditures are uncertain because of the continuing evolution of specific regulatory requirements.

Kyoto Protocol and CO₂ Emissions – As a result of the 1997 Kyoto Protocol to the United Nations Framework Convention on Climate Change, the European Commission (EC) has established CO₂ limits for every EU member state. In 2004, the EC approved a national allocation plan, for the period 2005 through 2007, (NAP I) that reduced Slovakia's originally proposed CO₂ allocation by approximately 14 percent, and following that decision the Slovak Ministry of the Environment (Ministry) imposed an 8 percent reduction to the amount of CO₂ allowances originally requested by USSK. Subsequently, USSK filed legal actions against the EC and the Ministry challenging these reductions. USSK is purchasing CO₂ allowances needed to cover its anticipated shortfall for the remainder of the NAP I allocation period. Based on the value of purchased credits and current market value of CO₂ allowances remaining to be purchased, a long-term other liability of \$3 million was recognized on the balance sheet as of March 31, 2007. At December 31, 2006, the long-term liability was \$7 million. On November 29, 2006, the EC issued a decision that Slovakia would be granted 25 percent fewer CO₂ allowances than were requested in Slovakia's second CO₂ trading period, 2008-2012 (NAP II). Both Slovakia and USSK have filed legal actions against the EC to challenge this decision. The Ministry has not yet made an allocation of Slovakia's CO₂ allowances to companies within Slovakia for the NAP II period.

While ratification of the Kyoto Protocol in the United States has not occurred, there remains the possibility that limitations on greenhouse gases may be imposed. The impact of any such limitations on U. S. Steel's domestic operations cannot be estimated at this time.

Environmental and other indemnifications – Throughout its history, U. S. Steel has sold numerous properties and businesses and many of these sales included indemnifications and cost

Table of Contents

sharing agreements related to the assets that were sold. These indemnifications and cost sharing agreements have related to the condition of the property, the approved use, certain representations and warranties, matters of title and environmental matters. While most of these provisions have not dealt with environmental issues, there have been transactions in which U. S. Steel indemnified the buyer for non-compliance with past, current and future environmental laws related to existing conditions. Most recent indemnifications and cost sharing agreements are of a limited nature only applying to non-compliance with past and/or current laws. Some indemnifications and cost sharing agreements only run for a specified period of time after the transactions close and others run indefinitely. In addition, current owners of property formerly owned by U. S. Steel may have common law claims and contribution rights against U. S. Steel for environmental matters. The amount of potential environmental liability associated with these transactions is not estimable due to the nature and extent of the unknown conditions related to the properties sold. Aside from the environmental liabilities already recorded as a result of these transactions due to specific environmental remediation activities cases (included in the \$141 million of accrued liabilities for remediation discussed above), there are no other known environmental liabilities related to these transactions.

Guarantees – The guarantee of the liabilities of an unconsolidated entity of U. S. Steel totaled \$2 million at March 31, 2007. In the event that any default related to the guaranteed liabilities occurs, U. S. Steel has access to its interest in the assets of the investee to reduce its potential losses under the guarantee.

Contingencies related to Separation from Marathon – U. S. Steel separated from Marathon on December 31, 2001 (the Separation). In the event of the bankruptcy of Marathon, certain of U. S. Steel's operating lease obligations in the amount of \$35 million as of March 31, 2007 may be declared immediately due and payable.

Other contingencies – Under certain operating lease agreements covering various equipment, U. S. Steel has the option to renew the lease or to purchase the equipment at the end of the lease term. If U. S. Steel does not exercise the purchase option by the end of the lease term, U. S. Steel guarantees a residual value of the equipment as determined at the lease inception date (totaling approximately \$22 million at March 31, 2007). No liability has been recorded for these guarantees as either management believes that the potential recovery of value from the equipment when sold is greater than the residual value guarantee, or the potential loss is not probable and/or estimable.

Mining sale – U. S. Steel remains secondarily liable in the event that the purchaser triggers a withdrawal before June 30, 2008 from the multiemployer pension plan that covers employees of its former coal mining business. A withdrawal is triggered when annual contributions to the plan are substantially less than contributions made in prior years. The maximum exposure for the fee that could be assessed upon a withdrawal is \$79 million. U. S. Steel has recorded a liability equal to the estimated fair value of this potential exposure. U. S. Steel has agreed to indemnify the purchaser for certain environmental matters, which are included in the environmental matters discussion.

1314B Partnership – See description of the partnership in Note 13. U. S. Steel has a commitment to fund operating cash shortfalls of the partnership of up to \$150 million. Additionally, U. S. Steel, under certain circumstances, is required to indemnify the limited partners if the partnership product sales prior to 2003 fail to qualify for the credit under Section 29 of the Internal Revenue Code. This indemnity will effectively survive until the expiration of the applicable statute of limitations. The maximum potential amount of this indemnity obligation at March 31, 2007, including interest and tax gross-up, is approximately \$690 million. Furthermore, U. S. Steel under certain circumstances has indemnified the partnership for environmental obligations. The maximum potential amount of

[Table of Contents](#)

this indemnity obligation is not estimable. Management believes that the \$150 million deferred gain related to the partnership, which is recorded in deferred credits and other liabilities, is sufficient to cover exposure under these commitments and indemnifications.

Self-insurance – U. S. Steel is self-insured for certain exposures including workers' compensation, auto liability and general liability, as well as property damage and business interruption, within specified deductible and retainage levels. Certain equipment that is leased by U. S. Steel is also self-insured within specified deductible and retainage levels. Liabilities are recorded for workers' compensation and personal injury obligations. Other costs resulting from self-insured losses are charged against income upon occurrence.

U. S. Steel uses surety bonds, trusts and letters of credit to provide whole or partial financial assurance for certain obligations such as workers' compensation. The total amount of active surety bonds, trusts and letters of credit being used for financial assurance purposes was approximately \$122 million and \$124 million as of March 31, 2007, and December 31, 2006, respectively, which reflects U. S. Steel's maximum exposure under these financial guarantees, but not its total exposure for the underlying obligations. Most of the trust arrangements and letters of credit are collateralized by restricted cash that is recorded in other noncurrent assets.

Commitments – At March 31, 2007, U. S. Steel's domestic contract commitments to acquire property, plant and equipment totaled \$137 million.

U. S. Steel is party to a take-or-pay arrangement that expires in 2008. Under this arrangement, U. S. Steel is required to accept pulverized coal each month or pay a minimum monthly charge of approximately \$2 million. If U. S. Steel elects to terminate the contract early, a maximum termination payment of \$58 million as of March 31, 2007, which declines over the duration of the agreement, may be required.

[Table of Contents](#)

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain sections of Management's Discussion and Analysis include forward-looking statements concerning trends or events potentially affecting the businesses of United States Steel Corporation (U. S. Steel). These statements typically contain words such as "anticipates," "believes," "estimates," "expects," "intends" or similar words indicating that future outcomes are not known with certainty and are subject to risk factors that could cause these outcomes to differ significantly from those projected. In accordance with "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, these statements are accompanied by cautionary language identifying important factors, though not necessarily all such factors that could cause future outcomes to differ materially from those set forth in forward-looking statements. For discussion of risk factors affecting the businesses of U. S. Steel, see Item 1A. Risk Factors and "Supplementary Data – Disclosures About Forward-Looking Statements" in U. S. Steel's Annual Report on Form 10-K for the year ended December 31, 2006. References in this Quarterly Report on Form 10-Q to "U. S. Steel", "the Company", "we", "us" and "our" refer to U. S. Steel and its consolidated subsidiaries unless otherwise indicated by the context.

RESULTS OF OPERATIONS

Net sales by segment for the first quarters of 2007 and 2006 are set forth in the following table:

(Dollars in millions, excluding intersegment sales)	Quarter Ended March 31,		% Change
	2007	2006	
Flat-rolled Products (Flat-rolled)	\$2,189	\$2,326	-6%
U. S. Steel Europe (USSE)	1,160	854	36%
Tubular Products (Tubular)	356	485	-27%
Total sales from reportable segments	3,705	3,665	1%
Other Businesses	51	63	-19%
Net sales	<u>\$3,756</u>	<u>\$3,728</u>	1%

Management's analysis of the **percentage change in net sales** for U. S. Steel's reportable business segments for the quarter ended March 31, 2007 versus the quarter ended March 31, 2006 is set forth in the following table:

Quarter Ended March 31, 2007 versus Quarter Ended March 31, 2006

	Steel Products ^(a)				Coke & Other	Net Change
	Volume	Price	Mix	FX ^(b)		
Flat-rolled	-9%	6%	-2%	0%	-1%	-6%
USSE	7%	19%	1%	7%	2%	36%
Tubular	-22%	2%	-6%	0%	-1%	-27%

^(a) Excludes intersegment sales

^(b) Foreign currency effects

Net sales were \$3,756 million in the first quarter of 2007, compared with \$3,728 million in the same quarter last year. The decrease in sales for the Flat-rolled segment primarily reflected lower shipments, partially offset by higher average realized prices (which increased \$34 per ton). The increase in sales for the European segment was primarily due to higher average realized prices, increased shipments and favorable currency effects. Including the currency effects, average realized prices increased \$125

[Table of Contents](#)

per ton from the same period last year. The decrease in sales for the Tubular segment resulted mainly from decreased shipments and an unfavorable change in product mix.

Operating expenses

Total operating expenses as a percent of sales were 91 percent in the first quarter of 2007, compared to 90 percent in the first quarter of 2006.

Profit-based union payments

Results for the first quarters of 2007 and 2006 included costs related to profit-based payments pursuant to the provisions of the 2003 labor agreement negotiated with the United Steelworkers (USW), and to payments pursuant to agreements with other unions. All of these costs are included in cost of sales on the statement of operations.

(Dollars in millions)	Quarter Ended		% Change
	2007	2006	
Allocated to segment results	\$ 30	\$ 29	3%
Retiree benefit expenses	26	27	-4%
Total	\$ 56	\$ 56	0%

Profit-based payment amounts per the agreement with the USW are calculated as a percentage of consolidated income from operations after special items (as defined in the agreement) and are: (1) to be used to assist retirees from National Steel with health care costs, based on between 6 percent and 7.5 percent of profit; and (2) paid as profit sharing to active union employees based on 7.5 percent of profit between \$10 and \$50 per ton and 10 percent of profit above \$50 per ton.

Pension and other benefits costs

Defined benefit and multiemployer pension plan costs totaled \$29 million in the first quarter of 2007, compared to \$47 million in the first quarter of 2006. The reduction was due to completion of amortization of prior service costs for a 1992 contract amendment, the shift of certain surviving spouse liabilities to retired life (included in other benefits), and better than expected asset investment performance in 2006, which lowers pension expense in 2007. Costs related to defined contribution plans totaled \$6 million in the first quarter of 2007, compared to \$5 million in last year's first quarter.

Other benefits costs, including multiemployer plans, totaled \$31 million in the first quarter of 2007, compared to \$28 million in the corresponding period of 2006.

Selling, general and administrative expenses

Selling, general and administrative expenses were \$139 million in the first quarter of 2007, compared to \$158 million in the first quarter of 2006. The decrease was primarily due to lower pension expense as discussed above.

[Table of Contents](#)

Income from operations by segment for the first quarters of 2007 and 2006 is set forth in the following table:

(Dollars in millions)	Quarter Ended March 31,		% Change
	2007	2006	
Flat-rolled	\$ 75	\$ 127	-41%
USSE	206	125	65%
Tubular	102	177	-42%
Total income from reportable segments	383	429	-11%
Other Businesses	2	-	
Segment income from operations	385	429	-10%
Retiree benefit expenses	(39)	(55)	-29%
Other items not allocated to segments:			
Asset impairment charge	-	(5)	
Total income from operations	\$ 346	\$ 369	-6%

Segment results for Flat-rolled

	Quarter Ended March 31,		% Change
	2007	2006	
Income from operations (\$ millions)	\$ 75	\$ 127	-41%
Raw steel production (mnt)	3,713	4,141	-10%
Capability utilization	77.6%	86.6%	-10%
Steel shipments (mnt)	3,188	3,529	-10%
Average realized steel price per ton	\$ 650	\$ 616	6%

The decrease in first quarter 2007 Flat-rolled income as compared to first quarter 2006 resulted mainly from higher raw material costs, reduced operating efficiencies and lower shipment volumes, partially offset by increased average realized prices and lower natural gas costs.

Segment results for USSE

	Quarter Ended March 31,		% Change
	2007	2006	
Income from operations (\$ millions)	\$ 206	\$ 125	65%
Raw steel production (mnt)	1,799	1,753	3%
Capability utilization	98.2%	95.7%	3%
Steel shipments (mnt)	1,652	1,508	10%
Average realized steel price per ton	\$ 669	\$ 544	23%

The increase in USSE income in the first quarter of 2007 as compared to the first quarter of 2006 was primarily due to higher average realized prices, partially offset by increased raw material costs.

[Table of Contents](#)

Segment results for Tubular

	Quarter Ended March 31,		% Change
	2007	2006	
Income from operations (\$ millions)	\$ 102	\$ 177	-42%
Steel shipments (mnt)	247	319	-23%
Average realized steel price per ton	\$1,435	\$1,506	-5%

The decline in Tubular income in the first quarter of 2007 as compared to the same quarter last year mainly resulted from lower shipment volumes and an unfavorable change in product mix.

Results for Other Businesses

Other Businesses generated income of \$2 million in the first quarter of 2007, compared to breakeven results in the first quarter of 2006.

Items not allocated to segments

In the first quarter of 2006, an impairment review was completed in accordance with Statement of Accounting Financial Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" due to the potential sale of a small wholly owned German subsidiary of U. S. Steel Kosice (USSK), which was subsequently sold in the fourth quarter of 2006. As a result, an **asset impairment charge** of \$5 million was recorded in depreciation, depletion and amortization on the statement of operations.

Net interest and other financial costs

(Dollars in millions)	Quarter Ended March 31,		% Change
	2007	2006	
Net interest and other financial costs	\$ 22	\$ 32	-31%
Interest income	(16)	(15)	
Foreign currency gains	(4)	(1)	
Charge from early extinguishment of debt	3	-	
Total net interest and other financial costs	\$ 5	16	-69%

The decrease in net interest and other financial costs in the first quarter of 2007 compared to the same period last year was mainly due to lower interest expense resulting from the redemption of most of our 10^{3/4}% Senior Notes in December 2006 and the redemption of our 10% Senior Quarterly Income Debt Securities in January 2007.

The **provision for income taxes** in the first quarter of 2007 was \$66 million, compared to \$90 million in the first quarter of 2006.

During 2007 and 2006, a current tax provision was recorded for USSK because the provisions of the Slovak Income Tax Act permit USSK to claim a tax credit of 50 percent of the current statutory rate of 19 percent for the years 2005 through 2009, compared to a 100 percent credit in previous years. As a result of conditions imposed when Slovakia joined the European Union (EU) that were amended by a 2004 settlement with the EU, the total tax credit granted to USSK is limited to \$430 million for the

[Table of Contents](#)

period 2000 through 2009. Based on the credits previously used and forecasts of future taxable income, management expects that this limit will be reached during 2008. Additional conditions for claiming the tax credit were established when Slovakia joined the EU. These conditions limit USSK's annual production of flat-rolled products and its sales of flat-rolled products into the EU. Management does not believe the production and sales limits are materially burdensome, and they will expire at the end of 2009, if not before.

As of March 31, 2007, U. S. Steel had a net domestic deferred tax asset of \$414 million. At March 31, 2007, the amount of foreign deferred tax assets recorded was \$17 million, net of an established valuation allowance of \$96 million. Net foreign deferred tax assets will fluctuate as the value of the U.S. dollar changes with respect to the euro, the Slovak koruna and the Serbian dinar. A valuation allowance of \$83 million is recorded for Serbian deferred tax assets due to the cumulative losses experienced since the acquisition of U. S. Steel Balkan (USSB) in 2003. These deferred tax assets primarily consist of investment tax credits and net operating losses and have a carryforward period of ten years from inception. As USSB generates sufficient income, the valuation allowance would be partially or fully reversed at such time that it is more likely than not that the related deferred tax assets will be realized. Management will continue to monitor and assess taxable income, deferred tax assets and tax planning strategies to determine the need for, and the appropriate amount of, any valuation allowance.

For further information on income taxes see Note 8 to Financial Statements.

U. S. Steel's **net income** was \$273 million in the first quarter of 2007, compared to \$256 million in the first quarter of 2006. The improvements primarily reflected the factors discussed above.

BALANCE SHEET

Receivables increased by \$155 million from year-end 2006 as first quarter 2007 shipment volumes increased compared to the fourth quarter of 2006.

Accounts payable increased by \$120 million from year-end 2006 primarily due to increased production and higher raw material costs compared to the fourth quarter of 2006.

Payroll and benefits payable includes a \$370 million payable that will be used to assist retirees from National Steel with health care costs . This liability increased \$25 million in the first quarter of 2007 and remains outstanding because the associated trust arrangement has not been established. This excludes related interest payable of \$22 million, which is recorded in **accrued interest**.

Short-term debt and current maturities of long-term debt decreased by \$50 million, which primarily reflected the redemption of all of our 10% Senior Quarterly Income Debt Securities due 2031. The redemption in the aggregate principal amount of \$49 million was funded with available cash.

CASH FLOW

Net cash provided from operating activities was \$319 million for the first quarter of 2007, compared with \$228 million in the same period last year. Cash from operating activities in the first quarter of 2007 was reduced by a \$35 million voluntary contribution to our main defined benefit pension plan. Cash from operating activities was sufficient to cover net investing outlays and financing outlays, which included \$53 million of debt repayment and \$25 million of common stock repurchases.

Capital expenditures in the first quarter of 2007 were \$108 million, compared with \$127 million in the same period in 2006. Flat-rolled expenditures were \$50 million and included spending for coke oven

Table of Contents

thru-wall repairs and development related to an enterprise resource planning system. USSE expenditures of \$30 million included spending at USSK for a new automotive galvanizing line, and spending at USSB for the reline of the No. 2 blast furnace. Expenditures of \$26 million for Other Businesses included spending for mining equipment.

U. S. Steel's domestic contract commitments to acquire property, plant and equipment at March 31, 2007, totaled \$137 million.

Capital expenditures for 2007 are expected to be approximately \$770 million.

Repayment of debt in the first quarter of 2007 primarily reflected the redemption of all of our 10% Senior Quarterly Income Debt Securities due 2031.

Dividends paid in the first quarter of 2007 were \$24 million, compared with \$15 million in the same period in 2006. Payments in the first quarter of 2007 reflected a quarterly dividend rate of 20 cents per common share. Payments in the first quarter of 2006 reflected a quarterly dividend rate of 10 cents per common share. Dividends paid in the first quarter of 2006 also reflected a quarterly dividend of \$0.875 per share for the 7% Series B Mandatory Convertible Preferred Shares, which were mandatorily converted into U. S. Steel common stock on June 15, 2006.

For discussion of restrictions on future dividend payments, see the discussion in the "Liquidity" section of U. S. Steel's Annual Report on Form 10-K for the year ended December 31, 2006.

LIQUIDITY AND CAPITAL RESOURCES

U. S. Steel has a \$500 million Receivables Purchase Agreement (RPA) with financial institutions that expires in September 2009. For further information regarding the RPA, see the discussion in the "Liquidity" section of U. S. Steel's Annual Report on Form 10-K for the year ended December 31, 2006. As of March 31, 2007, U. S. Steel had more than \$500 million of eligible receivables, none of which were sold.

U. S. Steel also has a revolving credit facility that provides for borrowings of up to \$600 million secured by all domestic inventory and related assets (Inventory Facility), including receivables other than those sold under the RPA. The Inventory Facility, which expires in October 2009, contains restrictive covenants, many of which apply only when average availability under the facility is less than \$100 million, including a fixed charge coverage ratio test. In addition, lenders may terminate their commitments and declare any amounts outstanding payable upon a change in control of U. S. Steel. For further information regarding the Inventory Facility, see the discussion in the "Liquidity" section of U. S. Steel's Annual Report on Form 10-K for the year ended December 31, 2006. As of March 31, 2007, U. S. Steel had in excess of \$600 million of eligible inventory under the Inventory Facility, and utilized \$2 million for letters of credit, reducing availability to \$598 million. We expect to replace the Inventory Facility with a new \$750 million 5-year revolving credit facility to be arranged during the second quarter.

At March 31, 2007, USSK had no borrowings against its €40 million and €20 million credit facilities (which approximated \$80 million at March 31, 2007), but had \$5 million of customs and other guarantees outstanding, reducing availability to \$75 million. Both facilities expire in December 2009.

At March 31, 2007, USSB had no borrowings against its €25 million facility (which approximated \$33 million), which is secured by its inventory of finished and semi-finished goods and expires September 28, 2008.

Table of Contents

At March 31, 2007, U. S. Steel had \$378 million outstanding under its 9 ³/₄% Senior Notes due May 15, 2010 (Senior Notes), which may be redeemed at a premium after May 15, 2007. The premium ranges from 4.875 percent to zero percent depending on the redemption date.

These Senior Notes impose limitations on our ability to make restricted payments. For a discussion of restricted payments and the conditions that we must meet in order to make restricted payments, as well as other significant restrictions imposed on us by the Senior Notes, see the "Liquidity" section of U. S. Steel's Annual Report on Form 10-K for the year ended December 31, 2006. As of March 31, 2007, we met those requirements and had approximately \$1.7 billion of availability to make restricted payments.

If the Senior Note covenants are breached or if we fail to make payments under our material debt obligations or the RPA, certain creditors would be able to terminate their commitments to make further loans, declare their outstanding obligations immediately due and payable and foreclose on any collateral. This may also cause a termination event to occur under the RPA and a default under the Senior Notes. Additional indebtedness that we may incur in the future may also contain similar covenants, as well as other restrictive provisions. Cross-default and cross-acceleration clauses in the RPA, the Inventory Facility, the Senior Notes and any future additional indebtedness could have an adverse effect upon our financial position and liquidity. We were in compliance with all of our debt covenants at March 31, 2007.

We use surety bonds, trusts and letters of credit to provide financial assurance for certain transactions and business activities. The use of some forms of financial assurance and collateral have a negative impact on liquidity. We have committed \$105 million of liquidity sources for financial assurance purposes as of March 31, 2007, a decrease of \$2 million during the first quarter of 2007, and expect no material changes during the remainder of 2007.

In the event of the bankruptcy of Marathon Oil Corporation, obligations of \$526 million relating to Environmental Revenue Bonds and two capital leases, as well as \$35 million relating to certain operating leases, may be declared immediately due and payable.

As of March 31, 2007, we had accrued \$392 million, including interest payable, which will be used to assist retirees from National Steel with health care costs. This liability remains outstanding because the associated trust arrangement has not been established.

The following table summarizes U. S. Steel's liquidity as of March 31, 2007:

(Dollars in millions)

Cash and cash equivalents ^(a)	\$ 1,532
Amount available under Receivables Purchase Agreement	500
Amount available under Inventory Facility	598
Amount available under USSK credit facilities	75
Amount available under USSB credit facilities	33
Total estimated liquidity	<u>\$ 2,738</u>

^(a) Excludes \$20 million of cash primarily related to the Clairton 1314B Partnership because it is not available for U. S. Steel's use.

Our liquidity at March 31, 2007 increased by \$130 million from December 31, 2006 due to higher cash balances.

Table of Contents

On March 28, 2007, U. S. Steel and Lone Star Technologies, Inc. (Lone Star) entered into a definitive Agreement and Plan of Merger pursuant to which U. S. Steel agreed to acquire all of the outstanding shares of common stock of Lone Star for \$67.50 per share. Consummation of the merger is subject to customary closing conditions, including the approval of Lone Star's shareholders and required regulatory approvals. Upon consummation of the transaction, Lone Star would be a wholly owned subsidiary of U. S. Steel. We would pay for the acquisition through a combination of cash on hand and financing obtained under our existing receivables purchase program and three new fully committed bank credit facilities provided by JPMorgan Chase Bank, N.A. (JPMorgan Chase).

Effective March 28, 2007, and in conjunction with entering into the agreement to acquire Lone Star, U. S. Steel obtained a commitment from JPMorgan Chase and J.P. Morgan Securities, Inc. (JPMorgan) pursuant to which (i) JPMorgan agreed to structure, arrange and syndicate for us three senior credit facilities in an aggregate amount of \$1.75 billion (the Facilities); and (ii) JPMorgan Chase committed to provide the full amount of the Facilities and to serve as administrative agent for the Facilities. Among other things, the commitment of JPMorgan Chase is subject to the negotiation, execution and delivery of mutually satisfactory definitive documentation on or before July 2, 2007, which we expect to happen. The Facilities, which would be unsecured, would consist of a \$750 million 5-year revolving credit facility, a \$500 million 5-year term loan and a \$500 million one-year term loan. Interest rates and availability fees would vary under a formula tied to U. S. Steel's senior unsecured debt ratings. The Facilities would have two financial covenants, an interest coverage test and a debt coverage test, and would also have lien limitations, cross defaults and other customary terms. The \$750 million revolving credit facility is expected to replace the existing \$600 million Inventory Facility in the second quarter, and the \$500 million 5-year term loan and the \$500 million one-year term loan are intended to finance the acquisition.

U. S. Steel management believes that U. S. Steel's liquidity will be adequate to satisfy its obligations for the foreseeable future, including the acquisition of Lone Star, funding obligations for new joint ventures and obligations to complete currently authorized capital spending programs. Future requirements for U. S. Steel's business needs, including the funding of acquisitions and capital expenditures, scheduled debt maturities, contributions to employee benefit plans, and any amounts that may ultimately be paid in connection with contingencies, are expected to be financed by a combination of internally generated funds (including asset sales), proceeds from the sale of stock, borrowings, refinancings and other external financing sources. This opinion is a forward-looking statement based upon currently available information. To the extent that operating cash flow is materially lower than current levels or external financing sources are not available on terms competitive with those currently available, including increases in interest rates, future liquidity may be adversely affected.

Off-balance Sheet Arrangements

U. S. Steel did not enter into any new off-balance sheet arrangements during the first quarter of 2007.

ENVIRONMENTAL MATTERS, LITIGATION AND CONTINGENCIES

U. S. Steel has incurred and will continue to incur substantial capital, operating and maintenance, and remediation expenditures as a result of environmental laws and regulations. In recent years, these expenditures have been mainly for process changes in order to meet Clean Air Act obligations and similar obligations in Europe, although ongoing compliance costs have also been significant. To the extent that these expenditures, as with all costs, are not ultimately reflected in the prices of our products and services, operating results will be reduced. U. S. Steel believes that our major domestic and many European integrated steel competitors are confronted by substantially similar conditions and thus does not believe that our relative position with regard to such competitors is materially affected by

Table of Contents

the impact of environmental laws and regulations. However, the costs and operating restrictions necessary for compliance with environmental laws and regulations may have an adverse effect on our competitive position with regard to domestic mini-mills, some foreign steel producers and producers of materials which compete with steel, all of which may not be required to incur equivalent costs in their operations. In addition, the specific impact on each competitor may vary depending on a number of factors, including the age and location of its operating facilities and its production methods. U. S. Steel is also responsible for remediation costs related to our prior disposal of environmentally sensitive materials. Most of our competitors do not have similar historic liabilities.

Our U.S. facilities are subject to the U.S. environmental standards, including the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act and the Comprehensive Environmental Response, Compensation and Liability Act, as well as state and local laws and regulations.

USSK is subject to the environmental laws of Slovakia and the European Union (EU). There are no legal proceedings pending against USSK involving environmental matters. USSK has a current compliance project for a primary dedusting system at Steel Shop No. 2 to meet air emission standards for particulates. The Slovak government has established November 30, 2007 as the deadline for USSK to meet compliance standards at Steel Shop No. 2, and USSK anticipates meeting the standards prior to the deadline.

As a result of the 1997 Kyoto Protocol to the United Nations Framework Convention on Climate Change, the European Commission (EC) has established CO₂ limits for every EU member state. In 2004, the EC approved a national allocation plan for the period 2005 through 2007 (NAP I) that reduced Slovakia's originally proposed CO₂ allocation by approximately 14 percent, and following that decision the Slovak Ministry of the Environment (Ministry) imposed an 8 percent reduction to the amount of CO₂ allowances originally requested by USSK. Subsequently, USSK filed legal actions against the EC and the Ministry challenging these reductions. USSK is purchasing CO₂ allowances needed to cover its anticipated shortfall for the remainder of the NAP I allocation period. Based on the value of purchased credits and current market value of CO₂ allowances remaining to be purchased, a long-term other liability of \$3 million was recognized on the balance sheet as of March 31, 2007. At December 31, 2006, the long-term liability was \$7 million. On November 29, 2006, the EC issued a decision that Slovakia would be granted 25 percent fewer CO₂ allowances than were requested in Slovakia's second CO₂ trading period, 2008-2012 (NAP II). Both Slovakia and USSK have filed legal actions against the EC to challenge this decision. The Ministry has not yet made an allocation of Slovakia's CO₂ allowances to companies within Slovakia for the NAP II period. The potential financial and/or operational impacts of NAP II are not currently determinable.

While ratification of the Kyoto Protocol in the U.S. has not occurred, there remains the possibility that limitations on greenhouse gases may be imposed. The impact of any such limitations on our domestic operations cannot be estimated at this time.

USSB is subject to the environmental laws of Serbia. Under the terms of the acquisition, USSB will be responsible for only those costs and liabilities associated with environmental events occurring subsequent to the completion of an environmental baseline study. The study was completed in June 2004 and submitted to the Government of Serbia.

U. S. Steel has been notified that it is a potentially responsible party (PRP) at 22 sites under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) as of March 31, 2007. In addition, there are 14 sites related to U. S. Steel where it has received information requests or other indications that it may be a PRP under CERCLA but where sufficient information is not presently available to confirm the existence of liability or make any judgment as to the amount thereof. There are

Table of Contents

also 43 additional sites related to U. S. Steel where remediation is being sought under other environmental statutes, both federal and state, or where private parties are seeking remediation through discussions or litigation. At many of these sites, U. S. Steel is one of a number of parties involved and the total cost of remediation, as well as U. S. Steel's share thereof, is frequently dependent upon the outcome of investigations and remedial studies. U. S. Steel accrues for environmental remediation activities when the responsibility to remediate is probable and the amount of associated costs is reasonably determinable. As environmental remediation matters proceed toward ultimate resolution or as additional remediation obligations arise, charges in excess of those previously accrued may be required. See Note 16 to Financial Statements.

For discussion of relevant environmental items, see "Part II. Other Information – Item 1. Legal Proceedings – Environmental Proceedings."

During the first quarter of 2007, U. S. Steel accrued \$4 million for environmental matters for domestic and foreign facilities. The total accrual for such liabilities at March 31, 2007 was \$141 million. These amounts exclude liabilities related to asset retirement obligations under Statement of Financial Accounting Standards No. 143.

U. S. Steel is the subject of, or a party to, a number of pending or threatened legal actions, contingencies and commitments involving a variety of matters, including laws and regulations relating to the environment. The ultimate resolution of these contingencies could, individually or in the aggregate, be material to the U. S. Steel Financial Statements. However, management believes that U. S. Steel will remain a viable and competitive enterprise even though it is possible that these contingencies could be resolved unfavorably to U. S. Steel.

OUTLOOK

Looking ahead to the second quarter, we expect continued solid operating results for our three reportable segments with overall results in line with the first quarter.

Second quarter Flat-rolled results are expected to improve from the first quarter on higher shipment volumes and utilization rates, partially offset by increased raw material, outage and energy costs. Average realized prices are expected to be comparable to first quarter levels as spot shipments and prices are expected to increase.

For USSE, we expect second quarter results to be somewhat lower than the first quarter as increased prices are offset by higher raw material and outage costs. Shipment levels should be in line with the first quarter.

Prices and shipments for Tubular in second quarter 2007 are expected to be lower than first quarter levels as imports and customer inventories remain high. This outlook does not reflect any effects from the pending transaction with Lone Star.

Normal seasonal improvements at Minnesota iron ore operations are expected to be lower due to production levels that will remain near first quarter, repair outages and costs for longer-term mine development.

Concerning the March 28, 2007 definitive agreement between U. S. Steel and Lone Star Technologies, Inc. (Lone Star), regulatory filings have been made under the Hart-Scott-Rodino Act in the United States and in several other nations. U. S. Steel expects that the transaction, which is subject to the approval of Lone Star's shareholders and regulatory approvals, will be completed late in the second quarter or early in the third quarter of 2007.

[Table of Contents](#)

This release contains forward-looking statements with respect to market conditions, operating costs, shipments and prices. Some factors, among others, that could affect market conditions, costs, shipments and prices for both domestic operations and USSE include global product demand, prices and mix; global and company steel production levels; plant operating performance; the timing and completion of facility projects; natural gas and electricity prices and usage; raw materials availability and prices; the impact of fixed prices in energy and raw materials contracts (many of which have terms of one year or longer) as compared to shorter-term contracts and spot prices of steel products; changes in environmental, tax and other laws; employee strikes; power outages or curtailments; and U.S. and global economic performance and political developments. Domestic steel shipments and prices could be affected by import levels and actions taken by the U.S. Government and its agencies. Economic conditions and political factors in Europe that may affect USSE's results include, but are not limited to, taxation, nationalization, inflation, currency fluctuations, increased regulation, export quotas, tariffs, and other protectionist measures. Consummation of the Lone Star acquisition is subject to the approval of Lone Star's shareholders, regulatory approvals and other customary conditions. In accordance with "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, cautionary statements identifying important factors, but not necessarily all factors, that could cause actual results to differ materially from those set forth in the forward-looking statements have been included in the Form 10-K of U. S. Steel for the year ended December 31, 2006, and in subsequent filings for U. S. Steel.

INTERNATIONAL TRADE

The U.S. Department of Commerce (DOC) and the U.S. International Trade Commission (ITC) recently completed their five-year "sunset" reviews of existing trade relief pertaining to Corrosion-Resistant Carbon Steel Flat Products (Corrosion-Resistant) and Carbon Cut to Length Plate (Cut to Length Plate).

The Corrosion-Resistant proceeding involved anti-dumping orders against product from Australia, Canada, France, Germany, Japan and South Korea; and countervailing duty orders against product from France and South Korea, all of which were put in place in 1993. The DOC had found that dumping and subsidization would be likely to continue or recur if any of these orders is revoked. On December 14, 2006, the ITC rendered its decision that material injury to the domestic industry would be likely to continue or recur if any of the orders from Germany or South Korea were to be revoked. It also found that material injury would not be likely to continue or recur upon revocation of any of the other orders. Thus, the orders from Germany and South Korea remain in place, while the other orders have been revoked. We are appealing the ITC's determinations regarding Australia, Canada, France and Japan.

The Cut to Length Plate proceeding involves both anti-dumping and countervailing duty orders against product from Belgium, Brazil, Mexico, Spain, Sweden, and the United Kingdom; and antidumping orders against Finland, Germany, Poland, Romania and Taiwan, most of which were put in place in 1993, with the exception of Taiwan which has been in place since 1979. The DOC had found that dumping would be likely to continue or recur if any of these orders is revoked. On December 14, 2006, the ITC rendered its decision that material injury to the domestic industry would not be likely to continue or recur upon revocation of any of the orders. Thus, all the orders have been revoked.

The DOC and the ITC are currently conducting five year "sunset" reviews of other existing trade relief of interest to U. S. Steel: Seamless Pipe, Oil Country Tubular Goods (OCTG), Hot-Rolled Steel Products (Hot-Rolled) and Welded Large Diameter Line Pipe (Line Pipe).

The Seamless Pipe proceeding involves anti-dumping orders against product from Argentina, Brazil and Germany. The OCTG proceeding involves anti-dumping orders against product from Argentina,

[Table of Contents](#)

Italy, Japan, Korea and Mexico, and drill pipe from Japan. All of these orders were imposed in 1995. The ITC conducted an injury hearing on seamless pipe on February 8, 2007 and on OCTG on April 12, 2007. On April 19, 2007, the ITC voted on the seamless pipe cases. The orders against Germany shall remain in place for an additional five years. The orders against Argentina and Brazil have been revoked. The ITC vote on the OCTG cases is scheduled for May 31, 2007. The orders against OCTG from Argentina and Mexico are subject to various challenges and appeals before the U.S. Court of International Trade, NAFTA binational panels and a World Trade Organization review panel. Adverse decisions in these cases could cause those orders to be prematurely terminated.

The Hot-Rolled proceeding involves anti-dumping orders against product from Argentina, China, India, Indonesia, Kazakhstan, Netherlands, Romania, South Africa, Taiwan, Thailand and Ukraine; and countervailing duty orders against product from Argentina, India, Indonesia, South Africa and Thailand. These orders were imposed in 2001. The DOC is engaged in investigations to determine whether dumping would be likely to continue or recur if any of the orders is revoked. The ITC will hold its injury hearing on July 31 and August 1, 2007, and will vote on October 10, 2007.

The Line Pipe proceeding involves antidumping orders against product from Japan and Mexico. These orders were imposed in December 2001 and February 2002, respectively. The DOC is engaged in investigations to determine whether dumping would be likely to continue or recur if any of the orders is revoked. The ITC will hold its injury hearing on July 26 and is scheduled to vote on October 2, 2007.

We cannot predict the impact of these rulings on future levels of imported steel or on our financial results. We expect to continue to experience high levels of competition from imports and will continue to monitor imports closely and file anti-dumping and countervailing duty petitions if unfairly traded imports adversely impact, or threaten to adversely impact, financial results.

ACCOUNTING STANDARDS

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (FAS) No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115" (FAS 159). This Statement permits entities to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses on these instruments in earnings. FAS 159 is effective as of January 1, 2008. U. S. Steel does not expect any material financial statement implications relating to the adoption of this Statement.

In September 2006, the FASB issued FAS No. 157, "Fair Value Measurements." This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. The Statement applies under other accounting pronouncements that require or permit fair value measurements and, accordingly, does not require any new fair value measurements. This Statement is effective as of January 1, 2008. U. S. Steel does not expect any material financial statement implications relating to the adoption of this Statement.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

COMMODITY PRICE RISK AND RELATED RISK

In the normal course of our business, U. S. Steel is exposed to market risk or price fluctuations related to the purchase, production or sale of steel products. U. S. Steel is also exposed to price risk related to the purchase, production or sale of coal, coke, natural gas, steel scrap, iron ore and pellets, and zinc, tin and other nonferrous metals used as raw materials.

U. S. Steel's market risk strategy has generally been to obtain competitive prices for our products and services and allow operating results to reflect market price movements dictated by supply and demand; however, U. S. Steel has made forward physical purchases to manage exposure to fluctuations in the purchase of natural gas and certain non-ferrous metals.

INTEREST RATE RISK

U. S. Steel is subject to the effects of interest rate fluctuations on certain of its non-derivative financial instruments. A sensitivity analysis of the projected incremental effect of a hypothetical 10 percent increase/decrease in March 31, 2007 interest rates on the fair value of the U. S. Steel's non-derivative financial assets/liabilities is provided in the following table:

(Dollars in millions)	Fair Value	Incremental Increase in Fair Value ^(b)
Non-Derivative Financial Instruments ^(a)		
Financial assets:		
Investments and long-term receivables	\$31	\$-
Financial liabilities:		
Long-term debt ^{(c) (d)}	\$894	\$22

(a) Fair values of cash and cash equivalents, receivables, notes payable, accounts payable and accrued interest approximate carrying value and are relatively insensitive to changes in interest rates due to the short-term maturity of the instruments. Accordingly, these instruments are excluded from the table.

(b) Reflects the estimated incremental effect of a hypothetical 10 percent increase/decrease in interest rates at March 31, 2007, on the fair value of our non-derivative financial assets/liabilities. For financial liabilities, this assumes a 10 percent decrease in the weighted average yield to maturity of our long-term debt at March 31, 2007.

(c) Includes amounts due within one year and excludes capital leases.

(d) Fair value was based on market prices where available, or estimated borrowing rates for financings with similar maturities.

At March 31, 2007, U. S. Steel's portfolio of long-term debt was comprised primarily of fixed-rate instruments. Our sensitivity to interest rate fluctuations is illustrated by the \$22 million increase in the fair value of long-term debt assuming a hypothetical 10 percent decrease in interest rates. However, our sensitivity to interest rate declines and corresponding increases in the fair value of our debt portfolio would unfavorably affect our results and cash flows only to the extent that we elected to repurchase or otherwise retire all or a portion of our fixed-rate debt portfolio at prices above carrying value.

FOREIGN CURRENCY EXCHANGE RATE RISK

U. S. Steel, primarily through U. S. Steel Europe, is subject to the risk of price fluctuations due to the effects of exchange rates on revenues and operating costs, firm commitments for capital expenditures

[Table of Contents](#)

and existing assets or liabilities denominated in currencies other than the euro, in particular U.S. dollars, the Slovak koruna and the Serbian dinar. U. S. Steel has not generally used derivative instruments to manage this risk. However, U. S. Steel has made limited use of forward currency contracts to manage exposure to certain currency price fluctuations. At March 31, 2007, U. S. Steel had open euro forward sale contracts for both U.S. dollars (total notional value of approximately \$24.0 million) and Slovak koruna (total notional value of approximately \$66.8 million). A 10 percent increase in the March 31, 2007 euro forward rates would result in a \$9.0 million charge to income.

SAFE HARBOR

U. S. Steel's Quantitative and Qualitative Disclosures About Market Risk include forward-looking statements with respect to management's opinion about risks associated with U. S. Steel's use of derivative instruments. These statements are based on certain assumptions with respect to market prices, industry supply and demand for steel products and certain raw materials, and foreign exchange rates. To the extent that these assumptions prove to be inaccurate, future outcomes with respect to U. S. Steel's hedging programs may differ materially from those discussed in the forward-looking statements.

Item 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

U. S. Steel has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of March 31, 2007. These disclosure controls and procedures are the controls and other procedures that were designed to ensure that information required to be disclosed in reports that are filed with or submitted to the SEC is: (1) accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures and (2) recorded, processed, summarized and reported within the time periods specified in applicable law and regulations. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2007, U. S. Steel's disclosure controls and procedures were effective.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have not been any changes in U. S. Steel's internal control over financial reporting that occurred during the fiscal quarter covered by this quarterly report, which have materially affected, or are reasonably likely to materially affect, U. S. Steel's internal control over financial reporting.

(d) Includes the 1314B Partnership.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

ENVIRONMENTAL PROCEEDINGS

Gary Works

On January 26, 1998, pursuant to an action filed by the U.S. Environmental Protection Agency (EPA) in the United States District Court for the Northern District of Indiana titled *United States of America v. USX, U. S. Steel* entered into a consent decree with EPA which resolved alleged violations of the Clean Water Act National Pollutant Discharge Elimination System (NPDES) permit at Gary Works and provides for a sediment remediation project for a section of the Grand Calumet River that runs through Gary Works. As of March 31, 2007, project costs have amounted to \$54.6 million. In January 2007, U. S. Steel commenced additional dredging. The cost to complete this dredging is estimated to be \$6.5 million. The Corrective Action Management Unit (CAMU) will remain available to receive dredged materials from the Grand Calumet River and could be used for containment of approved material from other corrective measures conducted at Gary Works pursuant to the Administrative Order on Consent for corrective action. CAMU maintenance and wastewater treatment costs are anticipated to be an additional \$2.0 million for the next five years. In 1998, U. S. Steel also entered into a consent decree with the public trustees, which resolves liability for natural resource damages on the same section of the Grand Calumet River. U. S. Steel will pay the public trustees \$1.0 million at the end of the remediation project for ecological monitoring costs. In addition, U. S. Steel is obligated to perform, and has initiated, ecological restoration in this section of the Grand Calumet River. The costs required to complete the ecological restoration work are estimated to be \$1.0 million. In total, the accrued liability for the above projects based on the estimated remaining costs was \$10.5 million at March 31, 2007.

At Gary Works, U. S. Steel has agreed to close three hazardous waste disposal sites, D5, T2, and D2 combined with a portion of the Refuse Area, where a solid waste disposal unit overlaps with the hazardous waste disposal unit. The sites are located on plant property. U. S. Steel is preparing a revised closure plan for D2 and the known tar areas of the Refuse Area. U. S. Steel has proposed that the remainder of the Refuse Area be addressed as a solid waste management unit (SWMU) under corrective action. The related accrued liability for estimated costs to close each of the hazardous waste sites and perform groundwater monitoring is, \$6.3 million for D5, \$4.4 million for T2 and \$10.9 million for D2 including a portion of the Refuse Area, at March 31, 2007.

On October 23, 1998, EPA issued a final Administrative Order on Consent addressing Corrective Action for SWMUs throughout Gary Works. This order requires U. S. Steel to perform a Resource Conservation and Recovery Act (RCRA) Facility Investigation (RFI) and a Corrective Measure Study (CMS) at Gary Works. Reports of field investigation findings for Phase I work plans have been submitted to EPA. Two Phase II RFI work plans have been submitted to EPA for approval. Four self-implementing interim measures have been completed. Through March 31, 2007, U. S. Steel had spent approximately \$24.2 million for the studies, work plans, field investigations and self-implementing interim measures. U. S. Steel continues implementation of one self-implementing interim measure. U. S. Steel is preparing a final proposal to EPA seeking approval for perimeter groundwater monitoring and has completed an investigation of sediments in the West Grand Calumet Lagoon. The costs to complete the Phase I work and implement the field investigations for the submitted Phase II work plans, the anticipated perimeter groundwater monitoring, investigation of the West Grand Calumet Lagoon and implementation of the self-implementing interim measure are estimated to be \$3.8 million. U. S. Steel has submitted a proposal to EPA seeking approval to implement Corrective Measures necessary to address soil contamination at Gary Works. Additionally, U. S. Steel has removed a number of abandoned drums recently discovered in the West Grand Calumet Lagoon, disposed of the materials at the CAMU and continues to assess the scope of removal for the remaining drums.

Table of Contents

U. S. Steel estimates the minimum cost of the Corrective Measures for soil contamination and drum removal to be approximately \$3.9 million. Closure costs for the CAMU are estimated to be an additional \$4.9 million. Until the remaining Phase I work and Phase II field investigations are completed, it is impossible to assess what additional expenditures will be necessary for Corrective Action projects at Gary Works. In total, the accrued liability for the above projects was \$12.6 million at March 31, 2007, based on the estimated remaining costs. It is reasonably possible that additional costs of \$30 million may be incurred at the West Grand Calumet Lagoon in combination with the two RCRA projects at Fairfield Works, the RCRA program at Lorain Tubular, the RCRA project at the Fairless plant and the project at Duluth Works discussed elsewhere in this section.

Clairton

In March 2006, U. S. Steel met with Allegheny County Health Department (ACHD) to discuss entering into a Consent Order to address compliance with the stack opacity limit at the pushing emission control baghouse for B Battery. U. S. Steel and ACHD have agreed to enter into a Consent Order, which will include a compliance plan for the replacement of all 76 thru-walls on B Battery. ACHD has demanded a civil penalty in the amount of \$500,000. The parties are in discussions about this demand. U. S. Steel is considering one or more Supplemental Environmental Projects (SEPs) to offset a significant portion of whatever penalty may be agreed to.

Fairless Plant

In January 1992, U. S. Steel commenced negotiations with EPA regarding the terms of an Administrative Order on consent, pursuant to RCRA, under which U. S. Steel would perform a RFI and a CMS at our Fairless Plant. A Phase I RFI report was submitted during the third quarter of 1997. A Phase II/III RFI will be submitted following EPA approval of the Phase I report. While the RFI/CMS will determine whether there is a need for, and the scope of, any remedial activities at the Fairless Plant, U. S. Steel continues to maintain interim measures at the Fairless Plant and has completed investigation activities on specific parcels. No remedial activities are contemplated as a result of the investigations of these parcels. The cost to U. S. Steel to continue to maintain the interim measures and develop a Phase II/III RFI Work Plan is estimated to be \$500,000, and was recorded as an accrued liability as of March 31, 2007. It is reasonably possible that additional costs of \$30 million may be incurred at this site in combination with the West Grand Calumet Lagoon at Gary Works, the two RCRA projects at Fairfield Works, the RCRA program at Lorain Tubular and the project at Duluth Works discussed elsewhere in this section.

Fairfield Works

A consent decree was signed by U. S. Steel, EPA and the U.S. Department of Justice (DOJ) and filed with the United States District Court for the Northern District of Alabama (United States of America v. USX Corporation) on December 11, 1997, under which U. S. Steel paid a civil penalty of \$1.0 million, completed two SEPs at a cost of \$1.75 million and initiated a RCRA corrective action program at the facility. The Alabama Department of Environmental Management (ADEM) assumed primary responsibility for regulation and oversight of the RCRA corrective action program at Fairfield Works, with the approval of EPA. The first Phase I RFI work plan was approved and field sampling for the work plan was completed in 2004. U. S. Steel submitted a Phase I RFI Report to ADEM in February 2005. ADEM approved the Phase I RFI Report and requested a Phase II RFI work plan. The remaining cost to develop and implement the Phase II RFI work plan is estimated to be \$754,000, and was recorded as an accrued liability as of March 31, 2007. U. S. Steel has completed the investigation and remediation of Lower Opossum Creek under a joint agreement with Beazer, Inc., whereby U. S. Steel has agreed to pay 30 percent of the costs. U. S. Steel's remaining share of the costs for sediment remediation is \$210,000. In January 1999, ADEM included the former Ensley facility site in Fairfield

Table of Contents

Corrective Action. Based on results from our Phase I facility investigation of Ensley, U. S. Steel has identified approximately two acres of land at the former coke plant for remediation. The estimated cost to remediate this area and close Ensley was recorded as an accrued liability of \$1.4 million as of March 31, 2007. While U. S. Steel does not possess information necessary to estimate reasonably possible additional costs at this site, they may range from insignificant to substantial. In total, the accrued liability for the projects described above was \$2.4 million at March 31, 2007, based on estimated remaining costs. It is reasonably possible that additional costs of \$30 million may be incurred at these sites in combination with the West Grand Calumet Lagoon at Gary Works, the RCRA project at the Fairless Plant, the RCRA program at Lorain Tubular and the project at Duluth Works discussed elsewhere in this section.

Great Lakes Works

On January 6, 2006, Great Lakes Works received a proposed administrative consent order from the Michigan Department of Environmental Quality (MDEQ) that alleged violations of NPDES permits at the facility. On February 13, 2007, MDEQ and U. S. Steel agreed to a revised Administrative Consent Order that resolves this matter. The Administrative Consent Order requires U. S. Steel to pay a civil penalty of \$300,000 and reimburse MDEQ \$50,000 in costs; and the Order identifies certain compliance actions that address the alleged violations. Great Lakes Works has initiated work on some of these compliance actions, has completed some, and is committed to submitting plans or recommending options to MDEQ for others, in conformance with the schedule specified in the Order. One of the compliance actions addresses three river basins along the Detroit River and U. S. Steel has initiated the corrective measure necessary to remove historic basin sediments from these areas. As of March 31, 2007, \$1.1 million has been spent on the project, and a liability of \$1.7 million has been recorded for estimated costs to complete the river basin project. Another compliance action includes modifications to the Cold Mill Wastewater Treatment Plant where U. S. Steel has agreed to rehabilitate four clarifiers and two wastewater conveyance pipelines, upgrade the computer control system and evaluate other potential improvements of this system. Some elements of this project have been completed at a cost of \$1.4 million and U. S. Steel anticipates that it could spend an additional \$5.1 million, most of which will be capitalized. Costs to complete the remaining compliance actions are presently not determinable.

Duluth Works

At the former Duluth Works in Minnesota, U. S. Steel spent a total of approximately \$13.4 million for cleanup and agency oversight costs through March 31, 2007. The Duluth Works was listed by the Minnesota Pollution Control Agency under the Minnesota Environmental Response and Liability Act on its Permanent List of Priorities. EPA has consolidated and included the Duluth Works site with the St. Louis River and Interlake sites on EPA's National Priorities List. The Duluth Works cleanup has proceeded since 1989. U. S. Steel is conducting an engineering study of the estuary sediments. The method and extent of remediation at this site is presently unknown, therefore, future costs are indeterminable. Study and oversight costs are currently estimated at \$313,000, and were recorded as an accrued liability as of March 31, 2007. These costs include risk assessment, sampling, inspections and analytical work, and development of a work plan and cost estimate to implement EPA five-year review recommendations. It is reasonably possible that additional costs of \$30 million may be incurred at this site in combination with the West Grand Calumet Lagoon at Gary Works, the two RCRA projects at Fairfield Works, the RCRA program at Lorain Tubular and the RCRA project at the Fairless Plant discussed elsewhere in this section.

Geneva Works

At U. S. Steel's former Geneva Works, liability for environmental remediation, including the closure of three hazardous waste impoundments and facility-wide corrective action, has been allocated between

Table of Contents

U. S. Steel and Geneva Steel Company pursuant to an asset sales agreement and a permit issued by Utah Department of Environmental Quality. In December 2005, a third party purchased the Geneva site and assumed Geneva Steel Company's rights and obligations under the asset sales agreement and the permit pursuant to a bankruptcy court order. U. S. Steel has reviewed environmental data concerning the site gathered by itself and third parties, has commenced the development of work plans that are necessary to begin field investigations and has begun remediation on some areas of the site for which U. S. Steel has responsibility. U. S. Steel has recorded an accrued liability of \$23.2 million as of March 31, 2007, for our estimated share of the remaining costs of remediation.

Other

On December 20, 2002, U. S. Steel received a letter from the Kansas Department of Health & Environment (KDHE) requesting U. S. Steel's cooperation in cleaning up the National Zinc site located in Cherryvale, Kansas, a former zinc smelter operated by Edgar Zinc from 1898 to 1931. In April 2003, U. S. Steel and Salomon Smith Barney Holdings, Inc. (SSB), entered into a consent order to conduct an investigation and develop remediation alternatives. In 2004, a remedial action design report was submitted to and approved by KDHE. U. S. Steel anticipates that our 50 percent share of the costs necessary to complete the remedial design and implement the preferred remedy will be approximately \$3.4 million. In 2005, KDHE and the U.S. Fish and Wildlife Service asserted a claim against U. S. Steel and SSB (now called CitiGroup Global Market Holdings, Inc.) for natural resource damages at the site and nearby creek. On March 23, 2007, U. S. Steel signed a consent decree that will settle this claim for a cash payment and U. S. Steel's share is \$247,875. On August 17, 2006, both parties received a demand from the DOJ for approximately \$1.7 million for past costs incurred by EPA in cleaning up the site and surrounding residential yards, U. S. Steel's share being 50 percent of the claim for past costs. U. S. Steel and CitiGroup signed an agreement to extend until May 31, 2007 the date by which an action on the claim must be filed with the court.

ASBESTOS LITIGATION

U. S. Steel is a defendant in approximately 310 active cases involving approximately 3,300 plaintiffs (claims). At December 31, 2006, U. S. Steel was a defendant in approximately 300 active cases involving approximately 3,700 plaintiffs. Almost 3,000, or approximately 91 percent, of these claims are currently pending in jurisdictions which permit filings with massive numbers of plaintiffs. Of these claims, over 1,500 are pending in Mississippi and over 1,200 are pending in Texas. Based upon U. S. Steel's experience in such cases, it believes that the actual number of plaintiffs who ultimately assert claims against U. S. Steel will likely be a small fraction of the total number of plaintiffs. Mississippi and Texas have amended their laws to curtail mass filings. As a consequence, the approximately 450 claims filed last year name either a single individual or a handful of individuals.

Historically, these claims against U. S. Steel fall into three major groups: (1) claims made under certain federal and general maritime laws by employees of the Great Lakes Fleet or Intercoastal Fleet, former operations of U. S. Steel; (2) claims made by persons who allegedly were exposed to asbestos at U. S. Steel facilities (referred to as "premises claims"); and (3) claims made by industrial workers allegedly exposed to products formerly manufactured by U. S. Steel. Most claims filed over the last several years have been premises claims. While U. S. Steel has excess casualty insurance, these policies have multi-million dollar self-insured retentions. To date, U. S. Steel has not received any payments under these policies relating to asbestos claims. In most cases, this excess casualty insurance is the only insurance applicable to asbestos claims.

These asbestos cases allege a variety of respiratory and other diseases based on alleged exposure to asbestos. U. S. Steel is currently a defendant in cases in which a total of approximately 150 plaintiffs allege that they are suffering from mesothelioma. The potential for damages against defendants may

Table of Contents

be greater in cases in which the plaintiffs can prove mesothelioma. In many such cases in which claims have been asserted against U. S. Steel, the plaintiffs have been unable to establish any causal relationship to U. S. Steel or our products or premises. In addition, in many asbestos cases, the plaintiffs have been unable to demonstrate that they have suffered any identifiable injury or compensable loss at all; that any injuries that they have incurred did in fact result from alleged exposure to asbestos; or that such alleged exposure was in any way related to U. S. Steel or our products or premises.

In every asbestos case in which U. S. Steel is named as a party, the complaints are filed against numerous named defendants and generally do not contain allegations regarding specific monetary damages sought. To the extent that any specific amount of damages is sought, the amount applies to claims against all named defendants and in no case is there any allegation of monetary damages against U. S. Steel. Historically, approximately 89 percent of the cases against U. S. Steel did not specify any damage amount or stated that the damages sought exceeded the amount required to establish jurisdiction of the court in which the case was filed. (Jurisdictional amounts generally range from \$25,000 to \$75,000.) U. S. Steel does not consider the amount of damages alleged, if any, in a complaint to be relevant in assessing our potential exposure to asbestos liabilities. The ultimate outcome of any claim depends upon a myriad of legal and factual issues, including whether the plaintiff can prove actual disease, if any; actual exposure, if any, to U. S. Steel products; or the duration of exposure to asbestos, if any, on U. S. Steel's premises. U. S. Steel has noted over the years that the form of complaint including its allegations, if any, concerning damages often depends upon the form of complaint filed by particular law firms and attorneys. Often the same damage allegation will be in multiple complaints regardless of the number of plaintiffs, the number of defendants, or any specific diseases or conditions alleged.

U. S. Steel aggressively pursues grounds for the dismissal of U. S. Steel from pending cases and litigates cases to verdict where we believe litigation is appropriate. U. S. Steel also makes efforts to settle appropriate cases, especially mesothelioma cases, for reasonable, and frequently nominal, amounts.

The following table shows activity with respect to asbestos litigation:

Period ended	Opening Number of Claims	Claims Dismissed, Settled and Resolved	New Claims	Closing Number of Claims	Amounts Paid to Resolve Claims (in millions)
December 31, 2004	14,800	5,300	1,500	11,000	\$ 14.6
December 31, 2005	11,000	3,800	1,200	8,400	\$ 11.0
December 31, 2006	8,400	5,150	450	3,700	\$ 8.0
March 31, 2007	3,700	600	200	3,300	\$ 1.4

The amount U. S. Steel has accrued for pending asbestos claims is not material to U. S. Steel's financial position. U. S. Steel does not accrue for unasserted asbestos claims because we believe it is not possible to determine whether any loss is probable with respect to such claims or even to estimate the amount or range of any possible losses. Among the reasons that U. S. Steel cannot reasonably estimate the number and nature of claims against us is that the vast majority of pending claims against us allege so-called "premises" liability based exposure on U. S. Steel's current or former premises. These claims are made by an indeterminable number of people such as truck drivers, railroad workers, salespersons, contractors and their employees, government inspectors, customers, visitors and even trespassers.

Table of Contents

It is not possible to predict the ultimate outcome of asbestos-related lawsuits, claims and proceedings due to the unpredictable nature of personal injury litigation. Despite this uncertainty, and although U. S. Steel's results of operations and cash flows for a given period could be adversely affected by asbestos-related lawsuits, claims and proceedings, management believes that the ultimate resolution of these matters will not have a material adverse effect on the Company's financial condition. Among the factors considered in reaching this conclusion are: (1) that U. S. Steel has been subject to a total of approximately 34,000 asbestos claims over the past 15 years ended December 31, 2006 that have been administratively dismissed or are inactive due to the failure of the plaintiffs to present any medical evidence supporting their claims; (2) that over the last several years, the total number of pending claims has declined; (3) that it has been many years since U. S. Steel employed maritime workers or manufactured or sold asbestos containing products; and (4) U. S. Steel's history of trial outcomes, settlements and dismissals, including matters in Madison County, Illinois, where U. S. Steel lost a significant verdict in 2003. U. S. Steel has not seen any material differences in subsequent settlements in Madison County or elsewhere since that verdict and management believes that the possibility of other such aberrational verdicts is remote, although not impossible.

The foregoing statements of belief are forward-looking statements. Predictions as to the outcome of pending litigation are subject to substantial uncertainties with respect to (among other things) factual and judicial determinations, and actual results could differ materially from those expressed in these forward-looking statements.

Item 1A. RISK FACTORS

During the first quarter of 2007, there were no material changes to the risk factors that were disclosed in Item 1A of U. S. Steel's Annual Report on Form 10-K for the year ended December 31, 2006.

[Table of Contents](#)

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

U. S. Steel had no sales of unregistered securities during the period covered by this report.

ISSUER PURCHASES OF EQUITY SECURITIES

The following table contains information about purchases by U. S. Steel of its equity securities during the period covered by this report.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1-31, 2007	110,000	\$ 72.39	110,000	7,541,200
February 1-28, 2007	85,000	\$ 86.95	85,000	7,456,200
March 1-31, 2007	110,000	\$ 90.80	110,000	7,346,200

This Form 10-Q will be posted on the U. S. Steel web site, www.ussteel.com, within a few days of its filing.

March 28, 2007

\$1,750,000,000 Senior Credit Facilities
Commitment Letter

United States Steel Corporation
600 Grant Street
Pittsburgh, PA 15219
Attention: Gretchen Haggerty
Executive Vice President
& Chief Financial Officer

Ladies and Gentlemen:

You (the "**Company**") have advised us that (i) you or your wholly-owned subsidiary propose to acquire (the "**Acquisition**") a company you have identified to us (the "**Target**"), (ii) you may repay outstanding long-term debt securities of the Company and (iii) you are refinancing your existing revolving credit facility, and in that connection you have requested that J.P. Morgan Securities Inc. ("**JPMorgan**") agree to structure, arrange and syndicate three senior credit facilities in an aggregate amount of \$1,750,000,000 (each, a "**Facility**" and collectively, the "**Facilities**"), and that JPMorgan Chase Bank, N.A. ("**JPMorgan Chase**") commit to provide the full amount of the Facilities and to serve as administrative agent for the Facilities.

JPMorgan is pleased to advise you that it is willing to act as sole and exclusive lead arranger and bookrunner for the Facilities.

Furthermore, JPMorgan Chase is pleased to advise you of its commitment to provide the full amount of the Facilities, upon the terms and subject to the conditions set forth or referred to in this commitment letter (the "**Commitment Letter**") and in the Summary of Terms and Conditions attached hereto as Exhibit A (the "**Term Sheet**").

It is agreed that JPMorgan Chase will act as the sole and exclusive Administrative Agent, and that JPMorgan will act as the sole and exclusive Lead Arranger and Bookrunner (in such capacities, the "**Lead Arranger**"), for the Facilities. You agree that no other agents, co-agents arrangers or bookrunners will be appointed, no other titles will be awarded and no compensation will be paid in connection with the Facilities (other than, in each case, as expressly contemplated by the Term Sheet) unless you and we shall so agree.

We intend to syndicate the Facilities to a group of financial institutions (together with JPMorgan Chase, the "**Lenders**") identified by us in consultation with you. JPMorgan shall commence syndication efforts promptly, and you agree to actively assist JPMorgan in completing a syndication satisfactory to both you and it. Such assistance shall include (a) your using commercially reasonable efforts to ensure that the syndication efforts benefit materially from your existing lending relationships, (b) direct contact

between senior management and advisors of the Company and the proposed Lenders, (c) assistance in the preparation of a Confidential Information Memorandum and other marketing materials to be used in connection with the syndication and (d) the hosting with JPMorgan of one or more meetings of prospective Lenders.

JPMorgan, in consultation with the Company, will manage all aspects of the syndication, including decisions as to the selection of institutions to be approached and when they will be approached, when their commitments will be accepted, which institutions will participate, the allocations of the commitments among the Lenders and compensation to the Lenders. In acting as the Lead Arranger, JPMorgan will have no responsibility other than to arrange the syndication as set forth herein and shall in no event be subject to any fiduciary or other implied duties. To assist JPMorgan in its syndication efforts, you agree promptly to prepare and provide to JPMorgan and JPMorgan Chase all information with respect to the Company and the Target and the transactions contemplated hereby, including all historical financial information and projections (the "**Projections**"), as we may reasonably request in connection with the arrangement and syndication of the Facilities. You hereby represent and covenant that (a) all written information, other than the Projections, that has been or will be made available to JPMorgan or JPMorgan Chase by you or any of your representatives, taken as a whole (collectively, the "**Information**"), is or will be, when furnished, complete and correct in all material respects and does not or will not, when furnished, contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements contained therein not materially misleading in light of the circumstances under which such statements are made and (b) the Projections that have been or will be made available to JPMorgan or JPMorgan Chase by you or any of your representatives have been prepared in good faith based on reasonable assumptions (it being understood that the Projections are not to be viewed as facts and that actual results may differ significantly from the Projections and that no assurance can be given that the results set forth in the Projections will be realized). If, after the time the Information has been made available to JPMorgan and JPMorgan Chase and prior to the execution and delivery of the Credit Documentation (as defined below), events occur that cause the Information to be misleading in any material respect, you shall promptly advise JPMorgan and JPMorgan Chase. You understand that in arranging and syndicating the Facilities we may use and rely on the Information without independent verification thereof.

A consideration for JPMorgan Chase's commitments hereunder and JPMorgan's agreement to perform the services described herein, you agree to pay to each of them the nonrefundable fees set forth in the Fee Letter referred to below.

JPMorgan Chase's commitment hereunder and JPMorgan's agreement to perform the services described herein are subject to (a) our satisfaction that prior to and during the syndication of the Facilities there shall be no competing offering, placement or arrangement of any debt securities or bank financing by or on behalf of the Company without our consent, (b) the negotiation, execution and delivery on or before July 2, 2007 of mutually satisfactory definitive documentation with respect to the Facilities (such documentation, the "**Credit Documentation**") and (c) the other conditions set forth or referred to in the Term Sheet. Any matters that are not covered by the provisions hereof and of the Term Sheet are subject to the approval and agreement of JPMorgan Chase, JPMorgan and the Company.

You agree (a) to indemnify and hold harmless JPMorgan Chase, JPMorgan, their affiliates and their respective officers, directors, employees, advisors, and agents (each, an "**indemnified person**") from and against any and all losses, claims, damages and liabilities to which any such indemnified person may become subject arising out of or in connection with this Commitment Letter, the Facilities, the use of the proceeds thereof, the Acquisition or any claim, litigation, investigation or proceeding relating to

any of the foregoing, regardless of whether any indemnified person is a party thereto, and to reimburse each indemnified person upon demand for any legal expenses (including the fees and expenses of a single counsel, which counsel shall be selected (x) by mutual agreement of the indemnified person and the Company or (y) if no such agreement has been reached following good faith consultation with respect thereto, by the indemnified party) and other reasonable and documented out-of-pocket expenses incurred in connection with investigating or defending any of the foregoing, provided that the foregoing indemnity will not, as to any indemnified person, apply to losses, claims, damages, liabilities or related expenses to the extent they are found by a final, non-appealable judgment of a court to arise from the breach of an express contractual undertaking by, or the willful misconduct, bad faith or gross negligence of, an indemnified person, and (b) to reimburse JPMorgan Chase, JPMorgan and their affiliates on demand for all reasonable and documented out-of-pocket expenses (including due diligence expenses, syndication expenses, travel expenses, and reasonable fees, charges and disbursements of counsel) incurred in connection with the Facilities and any related documentation (including this Commitment Letter, the Term Sheet and the definitive loan documentation) or the administration, amendment, modification or waiver thereof. If any action, suit or proceeding is brought against any indemnified person in connection with any claim for which it is entitled to indemnity hereunder, such indemnified person shall (i) promptly notify the Company in writing of such action, suit or proceeding and (ii) give the Company an opportunity to consult from time to time with such indemnified person regarding defensive measures and potential settlement. Notwithstanding any other provision of this Commitment Letter, the Company shall not be liable to pay any settlement effected without its written consent (which shall not be unreasonably withheld). No indemnified person shall be liable for any damages arising from the use by others of Information or other materials obtained through electronic, telecommunications or other information transmission systems or for any special, indirect, consequential or punitive damages in connection with the Facilities.

You acknowledge that JPMorgan Chase and its affiliates (the term "**JPMorgan Chase**" being understood to refer hereinafter in this paragraph to include such affiliates) may be providing debt financing, equity capital or other services (including financial advisory services) to other companies in respect of which you may have conflicting interests regarding the transactions described herein and otherwise. Neither JPMorgan nor JPMorgan Chase will use confidential information obtained from you by virtue of the transactions contemplated by this letter or their other relationships with you in connection with the performance by JPMorgan or JPMorgan Chase of services for other companies, and neither JPMorgan nor JPMorgan Chase will furnish any such information to other companies. You also acknowledge that JPMorgan and JPMorgan Chase have no obligation to use in connection with the transactions contemplated by this Commitment Letter, or to furnish to you, confidential information obtained from other companies.

In order to enable JPMorgan to bring relevant expertise to bear on its engagement under this Commitment Letter from among its global affiliates, you agree that JPMorgan may perform the services contemplated hereby in conjunction with its affiliates, and that any JPMorgan affiliates performing services hereunder shall be entitled to the benefits and subject to the terms of this Commitment Letter.

The Commitment Letter shall not be assignable by any party hereto without the prior written consent of each other party hereto (except, in the case of JPMorgan and JPMorgan Chase, to their respective affiliates, it being understood that any such affiliate shall be subject to the restrictions set forth in this sentence) (and any purported assignment without such consent, other than as described in the immediately preceding parenthetical, shall be null and void), is intended to be solely for the benefit of the parties hereto and is not intended to confer any benefits upon, or create any rights in favor of, any person other than the parties hereto and any indemnified person (as defined above); provided that JPMorgan and

JPMorgan Chase shall have the right, in their sole discretion, to syndicate the Facilities among commercial banks or other financial institutions or otherwise and to sell, transfer or assign all or any portion of, or interests or participations in, the Facilities and any notes issued in connection therewith. This Commitment Letter may not be amended or waived except by an instrument in writing signed by you, JPMorgan Chase and JPMorgan. This Commitment Letter may be executed in any number of counterparts, each of which shall be an original, and all of which, when taken together, shall constitute one agreement. Delivery of an executed signature page of this Commitment Letter by facsimile transmission or portable document format shall be effective as delivery of a manually executed counterpart hereof. This Commitment Letter and the accompanying Fee Letter are the only agreements that have been entered into among us with respect to the Facilities and set forth the entire understanding of the parties with respect thereto. This Commitment Letter shall be governed by, and construed in accordance with, the laws of the State of New York.

This Commitment Letter is delivered to you on the understanding that neither this Commitment Letter, the Term Sheet nor the accompanying Fee Letter nor any of their terms or substance shall be disclosed, directly or indirectly, to any other person except (a) to your officers, employees, directors, agents and advisors who are directly involved in the consideration of this matter or (b) as may be compelled in a judicial or administrative proceeding or as otherwise required by law (in which case you agree to inform us promptly thereof), provided, that the foregoing restrictions shall cease to apply (except with respect to the Fee Letter) after this Commitment Letter has been accepted by you.

The reimbursement, indemnification and confidentiality provisions contained herein shall remain in full force and effect regardless of whether the Facilities Documentation shall be executed and delivered and notwithstanding the termination of this Commitment Letter or JPMorgan Chase's commitment hereunder.

If the foregoing correctly sets forth our agreement, please indicate your acceptance of the terms hereof and of the Term Sheet and the Fee Letter by returning to our counsel Davis Polk & Wardwell in New York, an executed counterpart hereof not later than 5:00 p.m., on March 30, 2007. JPMorgan Chase's commitment and JPMorgan's agreements herein will expire at such time if JPMorgan Chase has not received such executed counterpart in accordance with the immediately preceding sentence.

JPMorgan Chase and JPMorgan are pleased to have been given the opportunity to assist you in connection with this important financing.

Very truly yours,

JPMORGAN CHASE BANK, N.A.

Accepted and agreed to as of
the date first written above:

UNITED STATES STEEL CORPORATION

By: /s/ L. T. Brockway
Name: L. T. Brockway
Title: Vice President & Treasurer

Summary of Terms and Conditions

I. Parties

Borrower: United States Steel Corporation (the "Borrower").

Sole Lead Arranger and Sole Bookrunner: J.P. Morgan Securities Inc. ("JPMorgan" and in such capacity, the "Lead Arranger").

Administrative Agent: JPMorgan Chase Bank, National Association ("JPMCB" and, in such capacity, the "Administrative Agent").

Lenders: A syndicate of banks, financial institutions and other entities, including JPMCB, arranged by the Lead Arranger (collectively, the "Lenders").

II. Credit Facilities

A. Revolving Credit Facility

Type and Amount of Facility: Five-year revolving credit facility (the "Revolving Credit Facility") in the amount of \$750,000,000 (the loans thereunder, the "Revolving Credit Loans").

Availability: The Revolving Credit Facility shall be available on a revolving basis during the period commencing on the date of execution and delivery of definitive documentation with respect to such Facility (such date with respect to any Facility, the "Closing Date" for such Facility) and ending on the fifth anniversary thereof (the "Revolving Credit Termination Date").

Commitment Increase: The Borrower may increase the commitments under the Revolving Credit Facility by an amount up to \$200,000,000, either through increases in the commitments of existing Lenders at the time willing to do so or by the addition of any financial institution(s) reasonably acceptable to the Administrative Agent, the Issuing Lender(s) and the Borrower.

Letters of Credit:

A portion of the Revolving Credit Facility not in excess of \$300,000,000 shall be available for the issuance of letters of credit the "Letters of Credit") by JPMCB or another Lender (in such capacity, the "Issuing Lender"). No Letter of Credit shall have an expiration date after the earlier of (a) one year after the date of issuance and (b) five business days prior to the Revolving Credit Termination Date, provided that a later expiration date will be permitted so long as such Letter of Credit is cash collateralized and provided further that any Letter of Credit with a one-year tenor may provide for the renewal thereof for additional one-year periods (which shall in no event extend beyond the outside date permitted by in clause (b) above).

Drawings under any Letter of Credit shall be reimbursed by the Borrower (whether with its own funds or with the proceeds of Revolving Credit Loans) on the same business day. To the extent that the Borrower does not so reimburse the Issuing Lender, the Lenders under the Revolving Credit Facility shall be irrevocably and unconditionally obligated to reimburse the Issuing Lender on a pro rata basis.

Competitive Loans:

The Borrower shall have the option to request that the Lenders bid for loans ("Competitive Loans") bearing interest at an absolute rate or a margin over the LIBO Rate (as defined in Annex I), with specified maturities of not less than one month or more than six months. Each Lender shall have the right, but not the obligation, to submit bids at its discretion. The Borrower, by notice given four business days in advance in the case of eurodollar rate bids and one business day in advance in the case of absolute rate bids, shall specify the proposed date of borrowing, the interest period, the amount of the Competitive Loan and the maturity date thereof, the interest rate basis to be used by the Lenders in bidding and such other terms as the Borrower may specify. The Administrative Agent shall advise the Lenders of the terms of the Borrower's notice, and, subject to acceptance by the Borrower, bids shall be allocated to each Lender in ascending order from the lowest bid to the highest bid acceptable to the Borrower. While Competitive Loans are outstanding, the available commitments under the Revolving Credit Facility shall be reduced by the aggregate amount of such Competitive Loans.

Initial Conditions: The availability of the Revolving Credit Facility shall be conditioned upon satisfaction of the following conditions precedent:

- (a) The conditions precedent set forth on Annex III hereto.
- (b) There not occurring or becoming known to Administrative Agent any material adverse change with respect to the Borrower and its subsidiaries taken as a whole.
- (c) The Borrower's Amended and Restated Credit Agreement dated as of October 22, 2004 shall have been terminated.

On-Going Conditions: The making of each extension of credit shall be conditioned upon (a) the accuracy of all representations and warranties in the Credit Documentation (including, without limitation, the material adverse change and litigation representations) and (b) there being no default or event of default in existence at the time of, or after giving effect to the making of, such extension of credit.

Purpose: The proceeds of the Revolving Credit Loans shall be used for general corporate purposes of the Borrower and its subsidiaries.

Maturity: The Revolving Credit Termination Date.

B. One-Year Term Loan Facility

Type and Amount of Facility: One-year term loan facility (the "One-Year Term Loan Facility") in the amount of \$500,000,000 (the loans thereunder, the "One-Year Term Loans").

Availability: The One-Year Loan Facility shall be available for drawing in a single drawdown not later than October 1, 2007.

Initial Conditions: (a) The conditions precedent set forth on Annex III hereto.

-
- (b) There not occurring or becoming known to the Administrative Agent any material adverse change with respect to the Borrower and its subsidiaries taken as a whole.

Purpose: The proceeds of the One-Year Term Loans may be used to pay the purchase price of the Acquisition and the related fees and transaction expenses, in part, or to refinance other long-term debt of the Borrower and its subsidiaries.

Maturity: The first anniversary of the Closing Date.

Mandatory Prepayments/Reductions: Loans under the One-Year Term Facility shall be prepaid with 100% of the net cash proceeds of issuances of debt and equity securities of the Borrower and its subsidiaries after the Closing Date, subject to an exception for the refinancing of other long-term debt of the Borrower and other exceptions to be agreed.

C. Five-Year Term Loan Facility

Type and Amount of Facility: Five-year term loan facility (the "Five-Year Term Loan Facility" and together with the One-Year Term Loan Facility, the "Term Loan Facilities"; the Term Loan Facilities together with the Revolving Credit Facility, the "Facilities") in the amount of \$500,000,000 (the loans thereunder, the "Five-Year Term Loans" and together with the Revolving Credit Loans and the One-Year Term Loans, the "Loans").

Availability: The Five-Year Term Loan Facility shall be available for drawing in a single drawdown not later than October 1, 2007.

Initial Conditions:

(a) The conditions precedent set forth on Annex III hereto.

(b) There not occurring or becoming known to the Administrative Agent any material adverse change with respect to the Borrower and its subsidiaries taken as a whole.

(c) Consummation of the acquisition no later than October 1, 2007 in all material respects in accordance with applicable law and the Merger Agreement (which Merger Agreement shall not differ materially from the draft thereof dated March 27, 2007) without material waiver or amendment thereof unless consented to by the Administrative Agent (which consent shall not be unreasonably withheld, conditioned or delayed).

Purpose: The proceeds of the Five-Year Term Loans shall be used for the payment of the purchase price for the Acquisition and the related fees and transaction expenses.

Maturity: The fifth anniversary of the Closing Date with amortization in amounts of \$25,000,000 to be payable on each anniversary of the Closing Date.

III. Certain Payment Provisions

Fees and Interest Rates: As set forth on Annex I.

Optional Prepayments and Commitment Reductions: Loans may be prepaid without penalty and commitments may be reduced by the Borrower in \$25,000,000 minimum amounts, provided, that Competitive Loans may not be prepaid without the consent of the relevant Lender.

IV. Certain Documentation Matters

Representations and Warranties: Shall include only the following:

Corporate Existence.

Corporate and governmental authorizations; no contravention; binding and enforceable agreements.

Financial information.

No material adverse change since 12/31/06, except as disclosed prior to the Closing Date.

Borrower and its subsidiaries have paid all taxes imposed upon them except for such taxes as are being contested in good faith and in cases where the failure to pay such taxes

would not reasonably be expected to result in a material adverse change.

Except as set forth in the Borrower's most recent reports filed with the SEC, the Borrower does not presently anticipate that remediation costs and penalties associated with environmental laws, to the extent not previously provided for, will result in a material adverse change.

Except as set forth in the Borrower's most recent reports filed with the SEC, there is no action, suit, arbitration or other proceeding, inquiry or investigation, at law or in equity, pending against the Borrower or of which the Borrower has otherwise received official notice or which to the knowledge of the Borrower is threatened against the Borrower, wherein there is a reasonable possibility of an unfavorable decision, ruling or finding that would reasonably be expected to result in a material adverse change.

The Borrower is not an "investment company" or a company "controlled" by an "investment company" within the meaning of the Investment Company Act.

Compliance with ERISA except where non-compliance would not reasonably be expected to result in a material adverse change.

Adequacy of Disclosure.

Affirmative Covenants:

Shall include only the following:

Furnishing of information, including (without limitation), quarterly and annual financial statements, officer's certificates regarding covenant compliance.

Furnishing notice of the occurrence of a Default or Event of Default together with a description of the action the Borrower shall employ to remedy the same.

Furnishing notice of any material adverse change (including, without limitation, circumstances arising in litigation, governmental investigations and environmental matters).

Maintenance of property; insurance coverage in such amounts and covering such risks as is usually carried by companies engaged in similar businesses.

Compliance with all applicable laws, rules and regulations, other than such laws, rules or regulations (a) the validity or applicability of which the Borrower or any Subsidiary is contesting in good faith or (b) the failure to comply with which would not reasonably be expected to result in a material adverse change.

The Borrower and its Subsidiaries will do or cause to be done all things necessary to preserve, renew and keep in full force and effect its legal existence and the rights, licenses, permits, privileges, franchises, patents, copyrights, trademarks and trade names material to the conduct of its business; *provided* that the foregoing shall not prohibit any merger, consolidation, liquidation or dissolution that is otherwise permitted.

The Borrower and its Subsidiaries will maintain proper books and records and grant the Lenders the right to inspect their property and books and records at reasonable times and upon reasonable notice.

Financial Covenants:

Minimum interest coverage (EBITDA/Interest) of 2:1.
Maximum leverage (Debt/EBITDA) of 3.25:1.

Negative Covenants:

Shall include only the following:

Neither the Borrower nor any Subsidiary will create or suffer to exist any lien on any of its assets except (i) existing liens, (ii) certain purchase money liens, (iii) liens existing on assets at the time of the acquisition of such assets, (iv) liens in connection with consignment arrangements, (v) liens arising in connection with permitted receivables financings, (vi) liens on assets of foreign subsidiaries, (vii) certain liens arising in the ordinary course and not in connection with financing transactions, (viii) liens arising in connection with a refinancing, extension, renewal or refunding of any permitted lien, (ix) liens to secure debt owing to the Borrower or a subsidiary of Borrower, (x) liens securing obligations in connection with governmental bonds issued to finance the

cost of pollution control facilities and (xi) liens not otherwise permitted on assets other than domestic inventory in an amount not to exceed 10% of Consolidated Net Tangible Assets.

No mergers or consolidations by the Borrower (unless (a) before and after giving effect thereto, no Default has occurred and is continuing and (b) the Borrower is the person surviving such transaction or is another entity organized under the laws of a state of the United States that assumes the Borrower's obligations under the credit agreement pursuant to satisfactory instrument of assumption).

Events of Default:

Shall include only the following:

Nonpayment of principal under the Facilities when due.

Nonpayment of interest or other amounts under the Facilities within five business days of becoming due.

Any representation and warranty made in the Credit Documentation shall prove to be false or misleading in any material respect when made or deemed made.

Breaches of covenants set forth in the Credit Documentation subject, in the case of affirmative covenants that are capable of being remedied, to a 30-day grace period after the earlier of actual knowledge and notice.

Failure to make any payment with respect to any other material debt (i.e., debt with an aggregate principal amount in excess of \$100,000,000) when due or within any applicable grace period; or any event or condition shall exist which permits the holder to cause acceleration of the maturity of any other material debt and shall continue uncured and unwaived for the longer of the applicable grace period or five business days; or the maturity of any other material debt shall be accelerated.

Certain bankruptcy events (subject, in the case of involuntary bankruptcy, to a 60 day grace period).

The occurrence of certain ERISA events that would reasonably be expected to result in a material adverse change.

The imposition of any unpaid judgments in excess of \$100,000,000 (which continue for a period of 30 consecutive days during which a stay of enforcement of such judgment or order, by reason of a pending appeal or otherwise, shall not be in effect).

Change in Control:

Upon the happening of a Change in Control, each Lender shall have the right to terminate its Commitments, declare its Loans due and payable and receive a payment from Borrower equal to the principal amount of its Loans outstanding plus interest thereon.

Voting:

Amendments and waivers with respect to the Credit Documentation shall require the approval of Lenders holding more than 50% of the aggregate amount of the Loans and unused commitments under the applicable Facility, except that (a) the consent of each Lender directly affected thereby shall be required with respect to (i) reductions in the amount or extensions of the scheduled date of maturity of any Loan, (ii) reductions in the rate of interest or any fee or extensions of any due date thereof and (iii) increases in the amount or extensions of the expiry date of any Lender's commitment and (b) the consent of 100% of the Lenders shall be required with respect to modifications to any of the voting percentages.

Assignments and Participations:

The Lenders shall be permitted to assign all or a portion of their loans and commitments with the consent, not to be unreasonably withheld, of (a) the Borrower, unless (i) the assignee is a Lender, an affiliate of a Lender or an approved fund or (ii) an Event of Default has occurred and is continuing, (b) the Administrative Agent and (c) the Issuing Bank(s). In the case of partial assignments (other than to another Lender, to an affiliate of a Lender or an Approved Fund), the minimum assignment amount shall be \$5,000,000, unless otherwise agreed by the Borrower and the Administrative Agent.

The Lenders shall also be permitted to sell participations in their Loans. Participants shall have the same benefits as the Lenders with respect to yield protection and increased cost provisions. Voting rights of participants shall be limited to those matters with respect to which the affirmative vote of the Lender from which it purchased its participation would

be required as described under "Voting" above. Pledges of Loans in accordance with applicable law shall be permitted without restriction. Promissory notes shall be issued under the Revolving Credit Facility only upon request.

Yield Protection:

The Credit Documentation shall contain customary provisions (a) protecting the Lenders against increased costs or loss of yield resulting from changes in reserve, tax, capital adequacy and other requirements of law and from the imposition of or changes in withholding or other taxes (subject to customary limitations) and (b) indemnifying the Lenders for "breakage costs" incurred in connection with, among other things, any prepayment of a Eurodollar Loan (as defined in Annex I) on a day other than the last day of an interest period with respect thereto and any prepayment of a Competitive Loan.

Expenses and Indemnification:

The Borrower shall pay (a) all reasonable out-of-pocket expenses of the Administrative Agent and the Lead Arranger associated with the syndication of the Facilities and the preparation, execution, delivery and administration of the Credit Documentation and any amendment or waiver with respect thereto (including the reasonable fees, disbursements and other charges of counsel) and (b) all out-of-pocket expenses of the Administrative Agent and the Lenders (including the fees, disbursements and other charges of counsel) in connection with the enforcement of the Credit Documentation.

The Administrative Agent, the Lead Arranger and the Lenders (and their affiliates and their respective officers, directors, employees, advisors and agents) will have no liability for, and will be indemnified and held harmless against, any loss, liability, cost or expense incurred in respect of the financing contemplated hereby or the use or the proposed use of proceeds thereof (subject to customary limitations).

Governing Law and Forum:

State of New York.

Counsel to the Administrative Agent and the Lead Arranger:

Davis Polk & Wardwell.

Interest and Certain Fees

Interest Rate Options:

The Borrower may elect that the Loans (other than Competitive Loans) comprising each borrowing bear interest at a rate per annum equal to:

the ABR; or

the Adjusted LIBO Rate plus the Applicable Margin.

As used herein:

“ABR” means the higher of (i) the rate of interest publicly announced by JPMCB as its prime rate in effect (the “Prime Rate”) and (ii) the federal funds effective rate from time to time plus 0.5%.

“Adjusted LIBO Rate” means the LIBO Rate, as adjusted for statutory reserve requirements for eurocurrency liabilities.

“Applicable Margin” means a percentage determined in accordance with the pricing grid attached hereto as Annex I-A.

“LIBO Rate” means the rate at which eurodollar deposits in the London interbank market for one, two, three or six months (as selected by the Borrower) are quoted on the Telerate screen.

Interest Payment Dates:

In the case of Loans bearing interest based upon the ABR (“ABR Loans”), quarterly in arrears.

In the case of Loans bearing interest based upon the Adjusted LIBO Rate (“Eurodollar Loans”), on the last day of each relevant interest period and, in the case of any interest period longer than three months, on each successive date three months after the first day of such interest period.

Facility Fees:

The Borrower shall pay a facility fee, calculated at the applicable rate per annum determined in

accordance with the pricing grid attached hereto as Annex I-A, on the average daily amount of the Revolving Credit Facility (whether used or unused), payable quarterly in arrears.

Commitment Fee:

The Borrower shall pay a commitment fee at the rate of 0.05% per annum on the undrawn amount of the commitments under each Term Loan Facility, payable with respect to each Term Loan Facility upon the earlier of (i) the funding of such Term Loan Facility and (ii) termination of the commitments thereunder.

Letter of Credit Fees :

The Borrowers shall pay a commission on all outstanding Letters of Credit at a per annum rate equal to the Applicable Margin then in effect with respect to Eurodollar Loans on the face amount of each such Letter of Credit. Such commission shall be paid to the Administrative Agent quarterly in arrears to be distributed ratably among the Lenders participating in the applicable letter of credit.

Default Rate:

At any time when the Borrower is in default in the payment of any amount of principal due under any Facility, such amount shall bear interest at 2% above the rate otherwise applicable thereto. Overdue interest, fees and other amounts shall bear interest at 2% above the rate applicable to ABR Loans.

Rate and Fee Basis:

All per annum rates shall be calculated on the basis of a year of 360 days (or 365/366 days, in the case of ABR Loans the interest rate payable on which is then based on the Prime Rate) for actual days elapsed.

**Pricing Grid
(bps)**

Revolving Credit Facility

Ratings¹	Facility Fee	Applicable Margin
Baa1/BBB+	8.0	27.0
Baa2/BBB	10.0	40.0
Baa3/BBB-	12.5	50.0
Ba1/BB+	15.0	72.5
Lower	20.0	105.0

Term Loan Facilities

Ratings¹	Applicable Margin
Baa1/BBB+	35.0
Baa2/BBB	50.0
Baa3/BBB-	62.5
Ba1/BB+	87.5
Lower	125.0

¹ Except as expressly provided, based upon the higher of Moody's and S&P ratings, unless split by more than one notch, in which case based upon a rating one notch higher than the lower of the two.

Certain Definitions

"Consolidated EBITDA" means, for any period, net income (or net loss) (before discontinued operations) *plus* the sum of (a) consolidated interest expense, (b) income tax expense, (c) depreciation expense, (d) amortization expense, and (e) any non-cash losses or expenses from any unusual, extraordinary or otherwise non-recurring items, including but not limited to (i) aggregate foreign exchange losses included in "other expense" and (ii) losses from minority interest, and *minus* (x) consolidated interest income and (y) the sum of the amounts for such period of any income tax benefits and any income or gains from any unusual, extraordinary or otherwise non-recurring items, including but not limited to (i) aggregate foreign exchange gains included in "other income" and (ii) income from minority interest; in each case determined on a consolidated basis for the Borrower and its Subsidiaries and in the case of items (a) through (e) and items (x) and (y), to the extent such amounts were included in the calculation of net income. For the purpose of calculating Consolidated EBITDA for any period, if during such period the Borrower or any Subsidiary shall have made an acquisition or a disposition, Consolidated EBITDA for such period shall be calculated after giving pro forma effect thereto as if such acquisition or disposition, as the case may be, occurred on the first day of such period.

"Consolidated Net Tangible Assets" means at any time, the aggregate amount of assets (less applicable reserves and other properly deductible items) of the Borrower and its consolidated Subsidiaries adjusted for inventories on the basis of cost (before application of the "last-in first-out" method of determining cost) or current market value, whichever is lower, and deducting therefrom (a) all current liabilities of such corporation and its consolidated Subsidiaries except for (i) notes and loans payable, (ii) current maturities of long-term debt and (iii) current maturities of obligations under capital leases and (b) all goodwill, trade names, patents, unamortized debt discount and expenses of such corporation and its consolidated Subsidiaries (to the extent included in said aggregate amount of assets) and other like intangibles, all as set forth in the most recent consolidated balance sheet of the Borrower and its consolidated Subsidiaries, delivered to the Administrative Agent, computed and consolidated in accordance with GAAP.

"material adverse change" means any event, development or circumstance that has had or would reasonably be expected to have a material adverse effect on (a) the business, operations or financial condition of the Borrower and its subsidiaries taken as a whole or (b) the validity or enforceability of any of the Credit Documentation or the rights or remedies of the Administrative Agent and the Lenders thereunder.

"Subsidiary" of a person means a corporation, partnership, joint venture, limited liability company or other business entity of which a majority of the shares of securities or other interests having ordinary voting power for the election of directors or other

governing body (other than securities or interests having such power only by reason of the happening of a contingency) are at the time beneficially owned directly, or indirectly through one or more intermediaries, or both, by such person. Unless otherwise specified, all references herein to a "Subsidiary" or to "Subsidiaries" shall refer to a Subsidiary or Subsidiaries of the Borrower.

Annex III

Initial Conditions:

The availability of the each Facility shall be conditioned upon satisfaction of, among other things, the following conditions precedent on or before July 2, 2007:

- (a) The parties shall have executed and delivered mutually satisfactory definitive financing documentation with respect to the each Facility (the "Credit Documentation").
- (b) The Lenders, the Administrative Agent and the Lead Arranger shall have received all fees required to be paid, and all expenses for which invoices have been presented, on or before the Closing Date.
- (c) The Lenders shall have received such legal opinions, documents and other instruments as they may reasonably request.

BASE SALARIES OF NAMED EXECUTIVE OFFICERS

On April 23, 2007, the Compensation & Organization Committee of the Board of Directors approved the following annual base salaries for United States Steel Corporation named executive officers (as defined in Item 402(a)(3) of Regulation S-K and excepting D. D. Sandman, who retired effective February 28, 2007), such base salaries to become effective on May 1, 2007:

J. P. Surma	\$1,135,008
J. H. Goodish	\$ 675,012
G. R. Haggerty	\$ 555,004
D. H. Lohr	\$ 425,012

The named executive officers listed above are also provided the following perquisites: occasional personal use of corporate aircraft, corporate automobiles, corporate properties and sports and cultural tickets; club memberships; financial planning and tax preparation services; and a parking space. Additionally, Mr. Lohr receives allowances, reimbursements and tax gross-ups in connection with his foreign service.

SUMMARY OF NON-EMPLOYEE DIRECTOR COMPENSATION ARRANGEMENTS

At its meeting on April 24, 2007, the Board of Directors approved the following non-employee director compensation arrangements to become effective as indicated below:

1. Effective July 1, 2007, the committee membership fees for the Compensation & Organization Committee and the Corporate Governance & Public Policy Committee will be increased from \$5,000 to \$10,000 (from \$6,000 to \$11,000 for the chairmen); provided that if a director serves on both committees, the director will receive only one such \$5,000 increase.

2. Effective January 1, 2008: (a) all meeting fees, committee membership fees and the Presiding Director retainer of \$1,000 will be eliminated; (b) the annual retainer will be increased from \$100,000 to \$180,000; (c) the Presiding Director and the committee chairs will receive an additional annual fee of \$5,000; and (d) the Deferred Compensation Program for Non-Employee Directors will be amended to change the required minimum deferral amount from 70% to 50%.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, John P. Surma, certify that:

1. I have reviewed this quarterly report on Form 10-Q of United States Steel Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
