Concurrent senior convertible notes offering

On March 20, 2013, USS priced an offering of \$275.0 million aggregate principal amount of 2.75% Senior Convertible Notes due 2019 (the "senior convertible notes offering"). USS granted the underwriters of the senior convertible notes offering a 30-day option to purchase an additional \$41.25 million aggregate principal amount of senior convertible notes. The senior convertible notes offering is expected to close on or around March 26, 2013, subject to customary closing conditions. This offering and the senior convertible notes offering are not contingent on one another.

T+4 settlement

USS expects that delivery of the notes will be made against payment therefor on or about the fourth business day following the date hereof (this settlement cycle being referred to as "T+4"). Under Rule 15c-1 under the Exchange Act, trades in the secondary market generally are required to settle in three

business days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date hereof will be required, by virtue of the fact that the notes initially will settle in T+4, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisor.

USS has filed a registration statement including a prospectus and a preliminary prospectus supplement with the SEC for the offering to which this communication relates.
